CHICAGO.

WAR ACTUALLY BEGUN.

A dispatch brought by the steamer *Adelaide*, dated Paris, Saturday, April 30th, says: "The "Austrians have crossed the Ticino, and hos"tilities have commenced. This is official."

THE FORCES OF THE COMING CONTEST.

There can now be no doubt that Europe is to be the scene of a tremendous conflict, the result of which we human ken can foresee.—The Emperors and the Kings, the Courts and the Cabinets of the leading nations of the continent are yielding themselves, to the control of the worst passions of our nature, and the people will become equally involved in the death struggle that must ensue.

At the commencement of the war, we present the following statistics showing several important elements, which must exercise a controling influence in the nature and the extent of the contest. They are taken from Elihu Burrett's Year Book of Nations, and are derived from offical documents most of which were issued in 1854:

Nations.	Population.	Army in Peace.	Navy. Ships.	Navy. Guns
Great Britain........	27,309,346	127,977	491	15,248
France..............	35,782,498	570,000	290	11,773
Austria.............	36,514,456	406,000	104	742
Russia..............	66,259,794	609,000	207	9,000
Prussia.............	16,935,420	129,117	54	288
Sardinia............	4,916,084	47,313	40	900
Papal States........	2,914,115	17,365	....	....
German States.......	45,091,663	303,498	....	....

	Revenue.	Total Debt.	Debt per Head.
Great Britain	$285,561,539	$3,669,798,216	$131.04
France..............	300,674,342	1,166,130,046	32.64
Austria.............	113,622,755	779,409,564	21.72
Russia..............	170,474,073	599,315,563	8.88
Prussia.............	77,352,848	156,867,940	9.12
Sardinia............	27,611,049	109,790,620	22.08
Papal States........	11,924,318	82,329,800	27.32

The figures for the army and navy show only the "peace establishment" of the several nations. We have no data to show what they would be in time of war, but we believe a safe estimate would be about as follows:

	Army.
Great Britain,................	625,000
France,.......................	725,000
Austria.......................	700,000
Russia........................	800,000
Prussia.......................	300,000
Sardinia......................	150,000
Papal States..................	100,000
German States.................	600,000
Total,........................	4,000,000

We are satisfied that at least FOUR MILLIONS OF MEN must soon become in one way or another involved in the fearful contest. The war has commenced with Austria on the one side, against Sardinia and France on the other; but all the leading great powers will doubtless become fully engaged within the next few months. The physical forces which will be hurled against each other will be tremendous, and the world may well stand in awe at the coming srrife.

Fearful as are the numbers of the armies to be engaged, the effect of the death-dealing instruments which modern science has given to the art of war must be tried in order to be appreciated. Artillery will now do execution for miles, and Minie rifles and self-adjusting percussion caps have taken the place of muskets and match-locks. Railways can transport and concentrate hundreds of thousands of men in half-a-dozen days, where it would have taken as many months in the days of Napoleon I. to place them, and the telegraph in as many minutes may order them when, where and how to use the engines of death.

In every aspect of the case, therefore, the world is likely to witness a more awful contest than is recorded in all the history of the past. If Minie balls and round shot can sweep away the old rotten dynasties of Europe and give liberty to the people, we say God speed them in their work. We look with hope upon the coming conflict, bloody and awful though it be.

THE WISCONSIN BOND QUESTION.

We stated some days since, that the Supreme Court of Wisconsin had *determined* upon a decision declaring the City and County Bonds and Farm Mortgages issued to Railroads in that State to be unconstitutional. Several of our Wisconsin contemporaries, however, questioned the correctness of our information. We learn now that our former statement was substantially true; that a decision of the above tenor has been arrived at by the Court, as regards the City, Town and County bonds, though it is not yet officially promulgated.—The Farm Mortgage question was not before the Court. It is likely that a re-argument will be ordered in view of the recent charges in the Court—the election of Judge Paine and appointment of Judge Dixon—but the decision declaring the unconstitutionality of the Town and City bonds had unquestionably been agreed upon by Judges Whiton, Smith and Cole.

Chicago Produce Markets.

During the past week the produce markets have been greatly excited on account of the war news received by the last three European steamers. In wheat especially there has been a strong speculative feeling, and greater activity than during any previous week of the season. The sales of the week foot up about 470,000 bushels, showing an advance of 32c on No. 1 Red; 20 to 22c on No. 2 Red; 21 to 22c on Standard Spring, and 24 to 25c on No. 2 Spring. During the same period the New York market has advanced about 10c.

The flour market, which has been so long quiescent, also shared in the improvement, and an advance of 75c to $1 per barrel has been established. The stock of winter wheat flour is limited, and there is a good speculative and home demand.

The Corn market has advanced during the week 6 to 8c per bushel, and the market closes firm at 80c for Illinois River, and 76 to 77c for No. 1 Railroad. Oats have advanced 3 to 4c, with a good shipping demand. The market for Highwines has also become more active, and advanced 4c during the week—closing firm at 28c.

By the telegraphic dispatches received last evening, it will be seen that the markets all over the Eastern Canada are excited. In Montreal Flour advanced yesterday 15 to 30c, and Chicago Spring wheat sold at $1.40. In New York, Flour advanced 25 to 30c and Wheat 3 to 6c; and in Buffalo Flour advanced 25 to 37½c.

The shipments of wheat from this port during the past week amount to 123,910 bushels—which is nearly double those of any previous week this season. Of this amount, 23,000 bushels were taken to St. Louis to supply millers in that city, 20,000 bushels went to Buffalo, and about 70,000 bushels to Oswego and Canada. The receipts of wheat were 46,136 bushels.

WELL-DESERVED COMPLIMENT.—Our readers may have sometimes been disposed to believe that we placed too high an estimate upon our Chicago artists. We are glad to find the following well-merited compliment to one of our most successful photographers, in the New York *Tribune*:

"The ordinary portrait-painter, unless he can speedily become extraordinary, is likely to be pushed from his vocation by the remarkable progress everywhere making in the art of photography; which gives us now a far more life-like and satisfactory picture than can possibly be produced by any artist, except he be one of much more than common skill and talent. We had supposed, too, that New York was preeminent in this new art, but some photographs which we have seen recently from Boston, and others which Mr. Fassett, of Chicago, called to show us, suggest the doubt, whether other cities are not quite as much favored in this respect as ourselves. Especially were we not prepared to find that a branch of art of so very recent a growth had reached such perfection as, judging from these Chicago photograph, it has in the West. Those shown to us are, as mere photographs, very fine, and being finished in water-colors, by Mrs. Fassett, we understood—both with boldness and delicacy of touch, thus acquire a new value as very attractive pictures. Without meaning to decide upon the respective merits of different artists in different places, it is at least safe to say that those in Chicago do not mean to be left behind, either in the skillful use of the instrument or careful finish of the picture."

Mr. Fassett has just returned from New York, and will be duly installed in his new and elegant quarters in a few days. Due notice of his reception will be given. In the meantime, his friends will find him in his old quarters, No. 131½ Lake street.

Address of Mr. I. H. Burch,

PRESIDENT OF THE CHICAGO SABBATH SCHOOL UNION.

Delivered at its first meeting, Tuesday evening, May 3d, 1859. Published in compliance with a resolution of the Superintendents of the Sabbath Schools of the city.

Ladies and Gentlemen of the Sabbath School Union: We have convened this evening for the inauguration of a system of Christian labor that will not only affect the immediate welfare of ourselves, and the Sabbath Schools committed to our care, but which will produce results as far reaching in the *blessings* that must follow as eternity itself. And it becomes us at this stage of our enterprise, as well also at every future period of our progress, to invoke the constant attendance of Heaven's blessing, and the guidance of unerring wisdom.

If, after the faithful labors of the Apostle Paul for the building up of the Redeemer's kingdom, and the salvation of "them that were ready to perish," *he* should be constrained to confess himself still debtor to the Gentiles; wherein should *we*, who enjoy the Christian privileges of this nineteenth century, distinguished above all former ages of the world for its effulgence of gospel light, be exempt from a like responsibility to those around us, to that which weighed upon the soul of the great Apostle? When we consider the worth of an immortal soul as estimated by God, and the great sacrifice made by our blessed Saviour for its salvation; and that in the economy of His kingdom of grace, a place of labor is provided for *each* of His followers, what weight of responsibility should *impel* to duty those "who were once enlightened, and have tasted of the heavenly gift, and were partakers of the Holy Ghost, and have tasted the good word of God and the powers of the world to come?" No disciple of Christ can *live* in the enjoyment of a well-grounded hope and high Christian privileges, or *attain*, in any large measure, to sanctification of life, unless he be a faithful laborer in the vineyard of his Lord.

And, my friends where can we find a field for labor within the broad range of God's heritage, that invites to duty with greater attractiveness than that in which we are engaged. The young convert just freed from the burthens of sin that have long weighed down his soul—with faculties newly born to heavenly aspirations, can here engage in the culture of soil just fitted to his talent, whatever that may be; and as he grows in grace, and in the knowledge of his Lord and Savior, the field expands before him, challenging, day by day, to new and increased energy and effort.

And why, too, should not the *Father* in Israel find here fields ever green and fountains ever flowing, to refresh and gladden his heart. The counsels of his experience and riper years are always instructive and valuable, and to withhold them from this field of labor is thus far burying the talent God has given him. Who better than he knows the length and breadth of the moral desolation spread out around us, and which we, by united effort and prayer, hope, in some measure, to dispel.

There are but few serious discouragements, and little that is disheartening, in the prosecution of this great and good work, while there is much to rejoice the heart at every step.

If the teacher comes to it, with a heart overflowing with gratitude to God, for the forgiveness of his sins, and with a *true* Christian's appreciations of God's goodness and mercies, by which he is blessed, at every step in life—the difficultie in his pathway will be *easily* surmounted, and new strength acquired, for the more effectual discharge of the duties that follow.

We must remember it is not our own, but God's work, we seek to perform, and what higher honor, for us, than, that we should be coworkers with Christ. The seed of the word which we are commanded to sow, has, given to it by God, principles of germination and production that ensure abundant harvests of blessings in return, when planted in the pure soil of young hearts, ere sin and the world have despoiled them of their youthful freshness and susceptibility, to moral influences.

There is no department of Christian labor, from which come back to us such speedy and remunerative profits, as that in which we are engaged. "The blade, the ear, and the full corn in the ear," are constantly before us, and never failing tokens of God's blessings on our labors, and encouragement, in our way, to perseverance in His service.

The faithful Sabbath School teacher is a missionary in the highest sense of the term. The principles of the Gospel he inculcates, possess the *only* power by which poor, sunken humanity can be elevated and brought back to its former high estate in the moral image of God, from *which* it has fallen by reason of the transgression of His divine law. Nor are the labors of the *true teacher* confined to the *school* room or *Sabbath* services. Wont to listen to tales of sorrow that come to him from the child of penury, his ear is quick to catch the note of anguish or wail of agony that proceeds from the cheerless cabin, or the couch of pain—and his *great* heart, expanded by the active exercise of Christian sympathy and benevolence, ever prompts to *speedy* application of desired remedies. Nor are the duties of his mission performed, when the demands merely of the diseased body are supplied. The sin-sick and disheartened soul calls for more important ministrations.

When the heart becomes accessible through gratitude for sympathy shown, and blessings bestowed, the faithful teacher improves the opportunity of applying spiritual remedies for spiritual diseases; and, oh! what heavenly joy comes back to the believer who has faithfully pointed his erring fellow mortal to "the Lamb of God, which taketh away the sin of the world."

"Behold," saith an impartial God, "all souls are mine," and *if*, when our work on earth shall be done, and we have passed beyond the confines of this life, we enter upon the enjoyment of never ending bliss, prepared in heaven for those who love and faithfully serve God; how indescribable the rapture of the soul to whom the master shall say, "Inasmuch as ye have done it unto one of the least of these, ye have done it unto me."

As teachers of mission schools, in proportion to our faithfulness in the discharge of duty, shall we encounter severe and systematic opposition?

The emissaries of Satan were never more vigilant in sowing tares in our moral vineyard, than at the present time.

* * * * * *

But with a proper appreciation of the importance of success in our efforts, and a firm reliance on God for all needed strength and wisdom, to guide us in our labors, we shall press forward with untiring energy until the rough places shall be made smooth, and the desert waste shall blossom as the rose.

No amount of prejudice or error can long withstand the genial influence of that love wherewith the soldier of the cross is armed for warfare in his Master's service.

Thus far, I have alluded only to our duties in the light of Christian citizenship; and, although conformity of life to the higher law of our being, necessarily embraces the full code of one's personal obligations; at the same time we cannot advert too often to some of the specific duties wherein we are debtors to the commonwealth under which we live.

The interests of this young and rapidly growing city, demand our special attention; doubtless many in this assembly have witnessed the entire progress of her prosperity—and in view of the high commercial eminence to which she has attained, we all have just cause for pride and exultation.

With our efforts for things temporal, have we as a community striven with *equal* zeal for the advancement of things eternal; has a desire to benefit and meliorate the condition of our fellow men been co-equal with *other* incentives to our personal efforts?

Wherein can we render more valuable service to the city or State, than by improving the general condition of the people, and adding to their education and intelligence; and if, as the poet saith, "the child is father of the man," how *important* that the opportunities of that *early* manhood be improved by ministrations on our part, of moral and religious culture.

Soon the places that now know us, shall know us no more forever. The schemes and enterprises, we are now carrying forward, must soon be resigned to others who are now in the spring time of life—and it is a *great* privilege that we can, in *some* measure conduct the mental and moral training of our successors.

Our republican form of government presupposes that every citizen, who exercises the rights and franchises by which the government is sustained and perpetuated, not only acts intelligently, but with a lively sense of the responsibility that attaches to each member of the confederacy.

How important then, that erducation and intelligence, not only, should be universal—but that sound moral and Christian principles should underlie all other considerations, where such momentous interests are involved.

Our personal freedom, and religious privileges are far from being permanently secure, or wholly within our own control. Our property may be squandered through the voice of an ignorant and misguided populace; and our boasted right, under the protection of law to worship God according to the dictates of our own consciences may be greatly abridged or wholly wrested from us by infidelity within the State, or the improper interference of ecclesiastical power from without.

The opposition that most threatens the destruction of this nation's welfare and the subversion of our government has its root in ignorance; and never can our ship of State enjoy safe anchorage, until the sun of righteousness shall illumine the dark places of the land, and Christ the Saviour shall reign King of nation as he is King of Saints.

Rise in the Mississippi at La Crosse.

We learn by a private dispatch that the Mississippi River has risen so high at La Crosse, that the railroad terminus is nearly submerged. One of the bridges over the Black River, near that point, has been carried away, and the cars are unable to reach the depot.

☞ The Des Moines city election of Monday last resulted in the election of B. L. Tidrick, Independent candidate for Mayor, Mr. Peter Myers, nominated by a Republican convention, having withdrawn.

THE CITY.

☞ Justice Milliken will, it is confidently hoped, be able in a few days to assume his duties in the Police Court.

☞ Yesterday was a gem of a day, but chilly. May just recovering from her Sunday spleen.

☞ We notice that the workmen are now putting on the richly cut stone cornice of the U. S. Custom House building.

☞ A little son of T. M. Bradley, residing on the West Side, was kicked in the face and seriously injured by a horse, on Sunday last.

☞ The body of the unknown man killed on the C. P. & F. Wayne Railroad, last week, has been committed to a stranger's grave by the Coroner, with whom his few effects remain.

☞ Madison street east of State is just being finished off with the Joliet Gravel Surface. A capital kind of street it is for the less frequented thoroughfares of the city.

☞ By to-morrow, the horse cars on State street will run to Ulich's, two miles south of Madison street, when good-bye forever to the omnibusses on that thoroughfare.

☞ In Police District No. 3, comprising the North Division, Lieut. Gund reports 140 arrests for the quarter ending May 1st., of which 14 were females. Total of fines $700.

☞ At McVicker's Theatre, this evening, Mrs. Lottie Hough takes a benefit, which, if equal to the claims of this talented and popular actress, will prove a bumper.

☞ The alarm of fire, about eight o'clock last evening, was caused by a bonfire in the Sixth District. It called out the whole Fire Department.

☞ We notice the steam fire engine Long John has mounted a first-class locomotive headlight. It is a great advantage to its management in the present state of our streets.

☞ A Floral Exhibition and Fair is on the tapis for the 18th inst., at Mechanics' Institute Hall, by the Gardeners' Society of Chicago. The public are to be admitted free. Messrs. A. T. Williams, J. C. Ure, Bridges, Layton, and Bonard are the Committee of Arrangements.

☞ State of the weather as taken by J. H. Reed & Co., Apothecaries, 144 Lake street, May 10th:

Barometer. 7 A. M.	Barometer. 12 M.	Barometer. 6 P. M.	Thermometer. 7 A. M.	Thermometer. 12 M.	Thermometer. 6 P. M.
29.30	29.30	29.30	48.	58.	48.

☞ On the 22d of March last, the room of J. Miltenburger was robbed of sundry articles of jewelry, clothing, &c. A man named Konig has just been arrested with most of the missing articles in possession. He is in store for the action of the Recorder's Court.

☞ Now is the time to put the city in order for the hot season near at hand. There are miles of filthy streets and stagnant alleys yet to be attended to, which a few weeks hence may be giving their pestilential vapor to the summer sun. Let them receive the timely attention required.

☞ The Police Court docket yesterday was only peculiar in that eight females were among the culprits fined for various offences, drunk and disorderly, &c. Julia Davenport, a noted courtesan, was fined $15 and sent to Bridewell for 90 days, for a brutal and shocking assault upon another of her class.

☞ The case of John McLaughlin who has just been indicted for murder in the Superior Court, will come up for trial this week. The affair will be remembered as the malicious misplacement of a switch on the G. & C. U. R. R., some months since, by means of which an engineer was killed.

☞ The walls of the old Saloon Building on the corner of Clark and Lake streets were being thrown down yesterday, attracting numerous spectators as the several heavy portions came thundering down. They built better walls once. We wager, fifteen or twenty years hence, if they stand so long, some of our present new structures will be levelled more easily.

☞ A singular case was that of Peter Mullen and the Murphys, two brothers and the mother of his deceased wife, whose body he wished and was proceeding to remove from one place of interment to another, when they demurred and came to the resistance of blows. They are under bonds to appear on a charge of assault and battery.

DR. E. READING.—This physician for the treatment of Consumption and Chronic diseases has returned from New Orleans, and may now be consulted at his rooms, No. 100 State street, corner of Washington. Dr. Reading has had his office established in our city for a number of years, and his success in the treatment of his specialties is too well known to need farther comments.

☞ The Post Office at Evanston was robbed on Sunday night of $152, by some thief, who entered in Dr. Weller's (the Postmaster) absence. The money was mostly in gold, and the balance in silver, and was taken from a secretary in the Postmaster's private room, which was pried open with a chisel found on the premises. An entrance to the building was effected by removing a back window bodily.

☞ The Art Exposition was, we are glad to notice, thronged yesterday by numerous visitors. We advise our readers to go once, and we are sure the visit will be repeated to the very limit of their leisure. The admiration and wonder is universal at the richness and high art merit of the pictures, some three hundred in number, with which the walls are hung. Certainly no one could have expected or demanded so much of Chicago. The display is one eminently worth hours of study. The Gallery is easily accessible, convenient and well arranged, and for the brief time it will be open deserves a full attendance at all hours of the day and evening. We shall notice it more in detail hereafter. We advise all to see the Exposition.

☞ The body of the unfortunate man, Joseph Langdon, drowned at Blue Island, was interred yesterday by Mr. Undertaker Berry. From a memorandum book in his possession, it is evident that he was born in Oswego county, N. Y., in 1810. The following memorandum was found in it:

ULICH'S HOTEL, KEPT BY NICHOLS & KIRKMAN,
CHICAGO, Dec. 24th, 1858.
Mr. Langdon has been a guest here for a few days. He is a quiet, inoffensive, well meaning man, and well deserves the little help that any one sees fit to bestow on him.

In another part of the document is a certificate signed by "Mary Connor, Bridget Robinson and Hannah Moriarty," inmates of the County House, that he had successfuly doctored them, during the absence of the County Physician.

MECHANIC'S INSTITUTE HALL.—Dr. Kane's Arctic Voyages have created a sensation superior to those of any traveler during the present century, and the announcement of the exhibition of Falling's panorama of these voyages will create an equal local sensation in this city. There is a sublime novelty about the snow and ice regions of old Boreas, which, not being often seen, fill the mind with wonder, and the soul with reverential awe. This splendid painting will bear being seen several times in a week. It will be on exhibition every evening this week, except Wednesday; and on Saturday afternoon at 3 o'clock, for families and children. Music each evening by the Light Guard Band.

☞ A very quick piece of work all round was that connected with a boot operation at the Briggs House yesterday. A chap indulging in three names, John Wells, *alias* Wm. Simpson, *alias* Burtis, entered the porter's room, and pulled off a rusty pair of boots. Well enough, so far; but, on re-covering his feet, it was done at the expense of E. H. Haddock, a new pair of patent leathers. Information was left with the City Marshal immediately, and, in one hour's time, Capt. Tenbroeck had overhauled his man and given him into safe keeping. That prisoner is the same individual who was tried last summer, in the Recorder's Court, for stealing a door-plate and some keys. There were found upon him a silver hunting watch, and a certificate of the death of one Hemes Louis Has, at Louisville, both of which were undoubtedly stolen. The latter article of property may lead to further disclosures. He was held to bail in $1,000, and, in default, committed.

A RATHER MIXED CASE—NOVEL SUIT FOR DIVORCE (AND ALIMONY).—A suit of a decidedly novel character, and very much mixed in its principal features, was up for trial in the Circuit Court of this county yesterday, before Judge Manniere, in the Chancery side thereof. It has occupied the docket for the past six years, being instituted in 1853. It is of the nature of a divorce, the plaintiff, as Bridget Shanley, bringing suit against Francis Shanley for divorce; not on the ground, evidently, that she misses the pleasure of his society, but is willing to receive its equivalent in the shape of a modicum of his property, Shanley being a well known Irish citizen of comfortable possessions.

For divers reasons, known only to Chancery, the case has struggled along for six years, and has but recently come to trial. In the interim, Mr. Shanley has married, and has several children as the fruit of the union. He meets the plaintiff squarely on the main question, and denies, in toto, a marriage as ever having taken place between himself and Bridget. Some of the evidence is curiously contradictory, as follows:

The plaintiff produces a marriage certificate, purporting to represent the bonds of union between herself and Shanley, signed at Watertown, Wisconsin, in 1850, by one "John Brown Square." Per contra, depositions, numerous and strong, from Watertown deny that any "John Brown *Square*" ever had personal or official existence there or thereabouts.

Bridget herself has also, as it appears from evidence, committed matrimony in her own behalf; though, through a desire to keep the influence of that circumstance out of the present trial, it was sworn to by a witness that she had offered him a suit of clothes to say nothing about this marriage.

Another circumstance bearing on the case is the existence of a judgment on the records of this court against Shanley, in favor of this identical Bridget, then Bridget Kearn, for $62 for services as his (Shanley's) housekeeper. The date of this suit is one or two years subsequent to the certificate of marriage which the defence allege to be fraudulent. The testimony in the case was concluded last evening.

CHICAGO SUNDAY SCHOOL UNION.—The Sunday Schools of the different evangelical churches of the city have recently united together for mutual consultation and encouragement under the name of the Chicago Sunday School Union. It consists of the Superintendents and teachers of some eighty schools, about thirty of which are mission schools, supported by the different churches in the more destitute or neglected portions of the city. These schools by teaching the children the elements of moral and religious truth are doing a great and good work. How much better for them to spend a couple of hours in such exercises, than to be learning the language of perdition, and preparing themselves for thieves and vagabonds—the inmates of prisons and penitentiaries. It is better, aye even cheaper to instruct the child than to punish the man.

The excellent address of the President, I. H. Burch, Esq., at the first monthly meeting of the Union last week, will be found in another column.

BRIGGS HOUSE.—The active and generous hosts of the Briggs House furnished their guests with a plentiful supply of lamb and green peas on Sunday last, the latter luxury having been brought from Savannah, Ga., by express, upon their order, and being the first of the season. The lamb—a sight to gladden the eyes and taste of an epicure—was raised by David Thatcher, Esq., of Harlem Station, in this county. We are glad to know that our friends Tucker & French are receiving the generous patronage which they well deserve, for the good taste, skill and generosity they display in providing for the wants of those who make the Briggs their "home."

GREAT WESTERN RAILWAY.—The following table shows the traffic on this road for the week ending May 6th, 1859:

☞ We learn that mine hosts of the Richmond House, Messrs. Taber, Hawk & Co., have leased the Hyde Park Hotel, and will make it a charming summer retreat. They will carry on both establishments.

THE GREATEST WONDER OF THE NINETEENTH CENTURY—A BANK LOCK WITHOUT ANY KEY OR KEY-HOLE.—*Messrs. Editors:* The above was the heading of an article, copied from the Albany *Daily Journal*, into your paper, and as it is calculated to mislead in respect to the Bank Lock without any key or key-hole being a new invention, I wish to state that such a lock was invented by Lewis Lillie, of Troy, New York, more than eight years since, was patented at that time, and has been in use ever since by most of the banks and bankers in this country. All other locks of this description are either an infringement upon his patent or worthless, as shown by the many certificates Lewis Lillie's Safes and Locks have received, among which are the following:

CHICAGO, April 30, 1859.

We have had for years in our bank vault both Wm. W. Bacon's Steel lined Safe, with his largest sized Bank Lock, and also one of Lillie's Wrought and Chilled Iron Safes, with his combination lock that has neither key nor key-hole, and from observation and experience we prefer the Lillie's security, so much so, that we have this day exchanged the Bacon's for a Lillie's of the same size and paid two hundred dollars difference. We have now and have always had full confidence in Lillie's Safes and Locks.

[Signed] ROCKWELL & Co., Bankers.

OFFICE OF CHAS. H. HAM & CO., BANKERS,
CHICAGO, May 10, 1859.

To whom it may concern:—We have this day taken from our bank vault one of Bacon's large sized, steel lined, vault safes, with his largest sized bank lock, and substituted Lillie's Wrought and Chilled Iron Safe with his combination Bank Lock, which has neither key nor key hole. We have the utmost confidence in Lillie's Safes and Locks, and cheerfully recommend them to bankers desiring securities for their money and valuables.

(Signed) CHAS. H. HAM & CO., Bankers.

We refer to the above parties that the Safes of the manufacture of Wm. W. Bacon, of New Haven, Conn., are of his *best quality*, and I offer them for sale at my warehouse, No. 35 Lake street, Chicago, at half the price Mr. Bacon received for them.

E. J. WOOLLEY,
Agent for Lewis Lillie.

CLOCKWORK ON A LARGE SCALE.—The Buffalo *Courier* pays what the traveling community will be disposed to concede is a very just tribute to a railroad management which may best be characterized in the terms of our caption. The improvements that have been gradually introduced into the management of railroads throughout the United States for the past few years, have reached a point as near perfection as human intelligence, ingenuity and skill are likely to attain. We refer to the regularity and precision with which trains of cars have come to be run. The *Courier* says:

Noticeing in a Cincinnati paper, which is devoted to the laudation of the Pennsylvania Central, and the abuse and disparagement of all competing lines of traffic and travel, a charge that the New York Central and Lake Shore Roads had not made their connections at this point regularly, since the fast time table went into operation on the 4th of last month, we took pains to ascertain the facts of the case. Since that period, the Central has missed but one connection at Buffalo, and the Lake Shore Road but one. This is a sufficient answer to the gratuitous misrepresentation of our Cincinnati contemporary; but we propose to illustrate, still further, the proposition with which we commenced this paragraph; and for this purpose, we take the New York Central, a road whose operation and general management are more familiar than any other, to the readers of this paper. Its fast trains run at the rate of over thirty miles an hour, including stoppages by the way. That is, the trip between Albany and Buffalo is made in less than ten hours, the trains stopping twelve times on the route, one of the rests being a half hour for dinner. And notwithstanding this high rate of speed, the requirements of the time table are constantly conformed to with the greatest exactness. A traveler wishing to take the train at a way station, knows with certainty at what time it will arrive, and he makes his arrangements with as much confidence as if he was starting from either end of the line. This regularity is a great public convenience, universally recognized and acknowledged.

We cannot wind up this brief article more fittingly than by stating the following fact. The Day Express train, from Buffalo to New York has missed but one connection at Albany since the spring arrangement in 1857, and that occurred on the 10th of January last, about the coldest day ever known in this State.

DR. BANNING.—Did the parents of Chicago but know the facts—the dreadful truths—which Dr. Banning is nightly laying before his astonished auditors—yes, astonished, for little do they know of the dreadful realities that are being enacted out in their own families, producing worse than death—insanity, deformity.

The Dr. lectures in the Lecture Room of Sloan's Commercial College this evening, on "Spinal Difficulties," and thus cures without medicine. He is none of the clap-trap lecturers, who *write down from books*. He is full of his subject, and never fails to enchain his auditors. There is more practical knowledge given in one of his lectures than were ever heard from any other in the same time. Lecture free.

☞ 'Our Musical Friend,' a weekly publication of sheet Music, containing 16 pages. Price only 10 cents.

"Our Musical Friend" is filled with the best Piano Solos, Duets, Songs, Operatic Arias, Polkas, Mazourkas, Quadrilles, Waltzes, and every other species of musical composition for voice and piano. The selections are made from the best American and European composers; are printed on full size music paper with all the accuracy and neatness that can be bestowed on music, and will be found adapted to every grade of performer.

We direct your attention to the price of the work. The same quantity of music procured from the regular publishers would cost more than ten times what we charge.

A year's subscription to 'Our Musical Friend,' will insure an accumulation of new and fashionable music which could not be obtained in any other way without an expenditure of at least two hundred dollars. Price 10 cts, weekly.

All back numbers constantly on hand.

CONSUMPTION & CHRONIC DISEASES.
DOCTOR E. READING
Would announce to the citizens of Chicago and vicinity that he has returned from New Orleans and may now be consulted (except Saturdays and Mondays) from 9 o'clock A. M. to 6 P. M., for all diseases of the
Lungs, Throat, Heart, Liver, Female Complaints, and all Chronic Diseases.
As these diseases progress rapidly, and often imperceptibly to a fatal termination unless promptly arrested, an early application is of the utmost importance to all who wish a PERMANENT and SPEEDY CURE.
His great success in the treatment of the above diseases has now been demonstrated beyond a doubt, and those who are needing his services should call at once. Consultation Free.

☞ Fever and Ague is a terrible disease. Of "all the ills that flesh is heir to," it is the faintest in its first manifestations, the most unrelenting in its progress, and the most defiant of medical skill. Fever and Ague is more destructive of life than Consumption, because it is more easily induced, and therefore more prevalent. It makes its victims for the grave, like an executioner's bond. Day by day, the sufferer grows weaker and weaker, and each hour does he fear a strong consciousness of approaching the tomb. We have said that the disease is one of those which has nearly always defied medical science—a few cases once in a while having been cured and reported. We are happy to announce that Dr. J. Hostetter, of Pittsburgh, has prepared a compound that has never been known to fail in curing the worst cases of this terrible disease. We recommend DR. J. HOSTETTER'S CELEBRATED BITTERS to suffering humanity generally, as a sure and speedy specific.
For sale by druggists and dealers generally, everywhere.
my11-2wd

☞ Dr. Seelye's Liquid Catarrh REMEDY.—There is no disease so common in this country as Catarrh. It is a disease affecting the lining membrane of the Nose, extending to the Throat. Its symptoms are unnatural discharges from the nose sometimes falling into the Throat, and are thrown off by coughing or hawking. As the disease progresses the discharges become thicker, offensive and disagreeable, causing a bad breath. The sense of smell is frequently distroyed or lessened, and the voice becomes unnatural, with a frequent desire to clear the Throat.
Catarrh in a majority of cases is the commencement of Consumption. Beginning in the nose it extends to the throat and from there to the lungs. It is a disease that should never for a day be neglected; and the importance of attending to it at its commencement, cannot be too earnestly urged upon the public, for thousands of persons might be saved from Consumption yearly, by cureing a Catarrh.
The remedy which I offer the public as a curative of this disease is a liquid preparation and is used by insufflation or by snuffing it up the nostrils. I have thoroughly tested it in my private practice, and can confidently and honestly say to those who have this disease that it will effect a cure of Catarrh in a majority of cases when used as directed. It at once lessens the discharges, destroyes all offensive odor and renders the head clear and the voice natural.
All diseases of the LUNGS, THROAT and NOSE successfully treated by the Inhalation of Cold Medicated Vapors. Office, 290 Merchant's Exchange, on the corner of Lake and Wells street.
A Circular with full particulars of disease, &c., will be sent to any address upon the receipt of a penny postage stamp. my11-1wd&1tw-d253

☞ Dyspepsia! Dyspepsia!!
DYSPEPSIA!—*What is it? How Cured?*—Dyspepsia is our National Disease—weak stomach, feeble digestion, distress after eating, costive habit, billious condition. How many suffer with it and its attendant symptoms of low spirits, bad taste, coated tongue, obstupified head, and attacks of headache! Yet how few know how to cure it? Generally, because the bowels are constipated, resort is had to cathartics or laxatives. But such a condition was never cured by catharties, whose only office is to weaken the digestion and impair the integrity of the entire assimilative system.
But HUMPHREYS' HOMEOPATHIC DYSPEPSIA PILLS—a simple medicated sugar pill—have cured hundreds of the worst and most obstinate cases. This is done simply by improving the tone and restoring the integrity of the digestive organs, from which result good appetite, regular habits, a clear head, and buoyant spirits. Such a medicine is a gem, and only requires to be known to be appreciated.
Price, 25 cents per box, with directions. Six boxes $1.
N. B.—A full set of Humphreys' Homeopathic Specifics, with book of Directions, and twenty different Remedies, in large vials, morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and Book, $2.
These Remedies, by the single box or case, are sent by mail or express, free of charge, to any address on receipt of the price. Address DR. F. HUMPHREYS & CO.

LAKE SHORE SUMMER RE-treat.—REYNOLDS HOUSE, Evanston, Ill.
Located on the most beautiful portion of the shores of Lake Michigan, about half an hour's ride from Chicago, on the Chicago and Milwaukee Railroad. The Reynolds House is a family hotel, fitted up in a comfortable manner with commodious grounds attached, and is in all its appointments specially adapted for those desiring to spend the summer in the country, where they can find all the comforts of a first class, quiet hotel. The pure atmosphere, pleasant drives, beautiful foliage, and the facilities for bathing, render this one of the most delightful retreats in the country. The house is now open and offers to the public either transient or permanent accommodation.

WEDNESDAY, MAY 11, 1859.

THE EUROPEAN WAR.

War has probably been declared at this moment, and we may soon expect the news of a battle within the frontier of Piedmont or on the banks of the Po. To fully understand the causes of this war is the best way to foresee the probable consequences of it. We learn nothing by "guessing," by conjecturing the victory of this party, or the revolution of that people, by wishing the downfall of Austria or the defeat of Napoleon. It may be more useful, perhaps, to look back over the history of the belligerant governments from the year 1815, when the despotism of Napoleon was extinguished, and the absolutism of the now reigning princes took its start. Since that time, we can confidently say, the history of the European world is nothing less than a permanent conspiracy of the five great powers against the liberty of the European people. When the Emperors of Russia and Austria, and the King of Prussia, kneeled down in the mud of the battlefield of Leipzig, to thank God for victory, and to promise their people liberty for their enthusiastic support—those three men told a great and terrible lie to their God and mankind; a perjury which will be avenged by the inexorable Nemesis of History. The treaty of Paris concluded, they went to the work of oppression; they gagged the press, persecuted those who had taken in earnest the word of princes, and even some honest Generals, who were ashamed of such faithlessness, were banished from their Courts, like criminals. Three single men, three demons of humanity, were from this time over the moving spring of the general conspiracy against the liberty of Europe, coercing the smaller States to subvert their constitutional systems by corruption or by open force; they were Metternich, Talleyrand, Nesselrode, with the appendix of Wellington, the disciple of the first and the dupe of all three. Two of them are living still; and though not in office, the one governs Prussia and the other Austria. In 1820 the people of Naples rose in arms, and the King, to save his crown, was forced to give a constitution to his people. All would have been well; but Austria said—No! called a Congress of the Powers at Laybach; marched an army to Naples, and forced this poor people to take their King again, without a constitution. Soon after a revolution broke out in Piedmont—victorious, too, but the demon of Austria moved an army to the frontier and saved again the absolutist throne. So this Congress of Laybach fulfilled but too truly the saying of Voltaire, "When kings deliberate, the nations tremble." Again: Spain had made a glorious revolution in 1820, had restored the Constitution of 1812, and was going to develop a sound constitutional life—when the Holy Alliance again interfered with the sovereign will of the Spanish people, and commanded the miserable Bourbon King, Louis XVIII., the creature of the Allied Powers, to invade Spain and abolish the constitutional government, which was but too well done. So all Europe was pacified. Even free England seemed for a while to have forgotten its origin; and the European people, till 1830, remained hopelessly fettered under the ban of the Holy Alliance. The thunderbolt of 1830, destroying the rotten throne of the Bourbons, struck dismay into the hearts of those despots; like a flash of lightning the movement spread to the frontier of Russia; new hopes were aroused in Germany and in Poland, and for a moment the leaders of the kingly conspiracy seemed terror-struck. But they said with Goethe, "I do not like a devil who desponds," rallied again, made their peace with the new King of France, who was very glad to come into so congenial a society, and with Russian armies and French, Austrian and Prussian intrigues and lies, smote down the heroic Polish revolution. Let us pass over this most melancholy part of European history. Again the Holy Alliance is all-powerful; the noblest of the Germans and the Poles are in the dungeons or in exile; "L'ordre regne a Varsovie," as the Minister of Louis Philippe said. Now the kings begin to meet again. In 1834 conferences are held in Vienna—Metternich the presiding genius. Like Shylock, they deliberate there how to cut the last pound of flesh from the lacerated body of the people. The conferences are secret, of course. In spite of their boasting they dare not publish their measures against the liberty of speech and the press—against the constitutional rights of the representative assemblies in the smaller Principalities—against free instruction in the German universities. Every desperate effort of some few enthusiastic youths gave them a new opportunity for oppression and assumption of arbitrary power. The Federal Diet at Frankfort, under the leadership of Austria, instead of a central government, was nothing more than a police institution, interfering with the domestic affairs of the smaller States. How this whole structure of perjuries, lies, intrigues and judicial murder broke suddenly down under the storm of 1848, is still in everybody's memory. Napoleon was at last the man who saved the family and order, as it was said in the official language; but in reality he saved the princes and their abominable systems, and nothing else. His *coup d'etat* in 1851 was the death blow for the French and German people, and he was lauded to the skies as the Hercules who had freed all the absolutists, great and small, from their deadly dread of Democracy!

Now why this sudden interruption of despotic friendship—why this great trouble in the family of the conspirators against the people? Is it because they do not fear the revolution any more—because they feel themselves strong enough to stand, Janus-faced, with one army against the enemy, and the other against their own people? Just the contrary. They fear revolution more than ever; but the bare possibility of a mutiny in their armies brings them to utter despair; and to avert this dreadful event, as well as bankruptcy, they have no other means of escape than war. In a war the troops could be more easily watched than in peace; in peace the French troops might go over to the people during the crisis of a revolution. So the Italian troops of Austria might fraternise with their countrymen, and so the Hungarian, Bohemian and Polish troops with their respective people. But in a war against the French, so at least the Austrian government hopes, the hetrogenous material of the army would consolidate into one body; excited by the death of some of their brethren in the first skirmishes, they would fight against the French from a feeling of revenge merely, and would not think of going over to the enemy. Napoleon, on the other side, would, by some victories, silence the whole Democracy of France, and attach the offices and the army to himself. So we see the chief object of this war would be to serve as a safety valve to the revolutionary spirit of the belligrent armies and nations, and to bleed them according to the rules of the art, down to such a degree, as will allow their masters a further safe respite of quiet, absolute government. Whether this calculation is in all points unimpeachable, we will consider another day.

The Democratic Factions—Another Basis of Settlement.

The Washington correspondent of the N. Y. *Courier and Enquirer* telegraphs to that paper under date of the 6th inst., that Senator Green, of Missouri, has suggested a compromise between the disagreeing factions of the Democratic party, that meets the approval of President Buchanan and Secretary Cass, and which, it is expected will restore harmony. "Mr. Green proposes to drop all discussion upon intervention and non-intervention, as non-essential, and proposes also the withdrawal of all opposition to the admission of Kansas, whether as a Free or Slave State. These bases of accommodation are accepted by the Administration, and the breach between the factions of the Democracy is regarded as healed."

TWO YEARS' AMENDMENT IN MASSACHUSETTS.

Between the labors of the Americans and Democrats in Massachusetts, the Two Years' Amendment to the Constitution of the State, has probably been adopted. Our intelligence is not conclusive; but at this writing there is no room to doubt, that in spite of the efforts of Republicans like HENRY WILSON, and Republican journals like the Springfield *Republican* and the Worcester *Spy*, the election has resulted as we have indicated. It has been known, for weeks, that a secret organization existed among the Democrats, the object of which was, while professing hostility to the amendment, to quietly vote for it, and cast the odium of its adoption upon the Republican party. They have succeeded with their American allies too well in this work. The vote is unprecedentedly light; but that part of it in favor of the amendment is just about the Democratic and American strength. We have nothing but censure for those Republicans who permitted themselves to be so duped by Democratic professions that this amendment is incorporated into the fundamental law of the old Bay State. Let it be their work to undo what their keen but unscrupulous opponents have accomplished!

MANUFACTURERS.

The abundance of unemployed capital in the Eastern cities must ere long seek opportunities for profitable investment. Those objects which for past years have absorbed the attention of capitalists, first among which was the construction of railways all over the country, have had their day, and the holders of money will look to legitimate business, and eschew all merely speculative enterprises for many years to come. A few leading lines of railway, where the necessities of commerce require, will be built; but it can scarcely be doubted that manufactures, commerce and agriculture will, for several years at least, absorb, and, of course, vastly increase the capital of the country.

As a field for legitimate enterprise, we call the attention of eastern capitalists to Chicago, as the city now of all others where their investments in manufactures will be sure to yield a large return. The immense growth of our city heretofore has been due mainly to its unequalled commercial advantages. Intelligent capitalists need but to study the extent and the resources of the country from which Chicago draws her immense trade, to be satisfied that she enjoys equal facilities to become one of the most successful manufacturing cities in the Union. In the first place, the market for manufactures is virtually unlimited—the facilities for distribution by railway, canal and lake everything that can be desired, and the raw material is both cheap and abundant. With all these requisites, it may be asked why our manufactures have not already assumed a more leading position in the affairs of the city? The answer is direct and conclusive—Chicago has, as yet, never had the capital and the artisans to fully develop her manufacturing advantages. As fast as capital accumulated it could be more profitably employed in our rapidly increasing commerce, and mechanics, as a general rule, could improve their worldly circumstances faster outside than inside of the workshop.

We do not wish, by any means, to disparage the manufacturing interests of the city; but all will agree that they are by no means commensurate with the wants of the West.

We have room in this article to specify but two branches of manufactures which might be almost indefinitely increased, were there capital here that could be spared from commercial enterprises to place them upon a proper basis. We allude to copper and iron. For the raw material we point to the exhaustless mines of Lake Superior. It can be brought here as return freight at the cheapest possible rate, and the coal to work it can now be had both by canal and railway, at prices that we should suppose would afford the consumer a liberal profit.

One great drawback upon manufacturing heretofore has been the high price of real estate and the high price of living. Capitalists were afraid to risk their money where everything seemed so much inflated. The "hard times" of the last few months have changed all this, and outside but convenient localities on the North or the South Branch, can now be had at reasonable figures.

It deserves to be particularly remembered in this connection, that our enterprising citizens, A. T. Spencer & Co., have steadily maintained their line of steamers to Lake Superior. Contracts can be made with them to freight copper and iron ore at the most reasonable prices, and generally in the whole history of the city there never was so good a time to commence the manufacture of copper and iron in all their departments, with so certain a prospect of success. Who will embrace these inviting opportunities, and make their fortunes?

New York and Erie Railroad.

Strikes from non-payment of wages, or from dissatisfaction from one cause or another, seem to be a chronic condition of the road. The public press ignores its existence altogether, or if they refer to it at all, it is only by way of censure or sneer. The public follow the lead of the press.

This is the condition of the New York and Erie Railroad, as daguerreotyped in the last number of the American *Railroad Journal*. "How are the mighty fallen"!! Once the New York and Erie was the pet, both of the press and the people. Now it has the contempt of both. Surely, that contempt has not originated without cause. The blunders of its managers cannot be repaired by years of exertion, and will cost the company millions of money. Passengers and freight now go north of it by the New York Central, or south by the Pittsburgh and Fort Wayne and the Pennsylvania Central. The Erie enjoys a central, and, in many respects, the best position; but with all its advantages it is writhing in the agonies of hopeless bankruptcy. It is sure to "go under, and the sooner the better. In new hands, and with the best management, it will take years for it to regain its former standing in the good opinion of the public. The condition of the Erie might be profitably studied by the Galena Road and some others we wot of. Let them ponder and improve upon the lessons it affords.

Improvements in Paris.

It is stated that Louis Napoleon has spent 710,000,000 francs or about 142 millions of dollars, in improving the city of Paris, since his accession, and that he proposes shortly to spend 1,357,760,000 francs more, so that before long the present Emperor will have expended over four hundred and thirteen millions of dollars in beautifying that city.

The improvements now projected are the removal of all the houses between the Palais de Justice and Notre Dame, plant a large square between them, bordered with handsome houses. All the houses between Notre Dame and the northern arm of the Seine, are likewise to be torn down, and the Archbishop's Palace built there in a fine garden. Hotel Dieu will also be pulled down, and rebuilt on a magnificent scale.

It is this spirit that has made Paris the most attractive city in the world.

Great Stampede of Slaves.

[From the Detroit Advertiser, 7th.]

We learn from reliable authority that *seventy fugitive slaves* arrived in Canada by one train, from the interior of Tennessee. This is probably the largest number that ever escaped in one company. But a week before a company of twelve arrived and are now at the depot near Malden. Nearly the same time one of seven, and another of five safely landed on the free soil of Canada, making ninety four in all, worth at the present market, price the handsome sum of $94,000! The underground Railroad was never before doing so flourishing business. At the rate these ungrateful fellows are stealing themselves, the market must be seriously affected, unless kept supplied direct from Africa.

Great Mortality of Hogs in Sangamon County.

Mr. Wiley Crafton, a farmer of Pleasant Plains, Sangamon County, writes to the *State Register*, under date of May 5th, as follows:

Last night I fed my hogs as usual, they all seemed to be feeding and doing well on pasture. I went to the pasture this morning about 8 o'clock and found seventy hogs dead, and many that were dying. At 10 o'clock there were ninety dead, and at 12 o'clock one hundred and nine. The average length of time that they would live after taking it, would be from fifteen to thirty minutes. All efforts to administer relief were in vain.

HOG CHOLERA.—This fatal disease is carrying away large numbers of hogs in the vicinity of Decatur. It is said the Sangamon River bottom is covered with their dead bodies.

THE TIMES BALANCING THE QUESTION.

It Recommends Non-Intervention.

[From the London Times, April 23.]

It would be fanatical to suggest that Sardinia can hold her own for a week against the hosts about to be let loose upon her. The flood of spoilers will sweep over the land. Turin must be occupied, although probably not held. The power of the Piedmontese monarchy will be shut up in the few fastnesses which Sardinia contains, and the real struggle will not begin until Austria has struck a blow which will be heard throughout Italy. As a belligerent power she is wise in her generation, but she is not wise in her generation if she is seeking unnecessarily to become a belligerent Power. If she believed that there was no hope of permanent peace, that the French Emperor was resolved upon war, and that she was only being kept fainting under the weight of her arms, waiting until it should suit the convenience of the Emperor to overwhelm her; if she, moreover, is willing at this moment, when her promptitude has given her the choice of an offensive policy, to make those reasonable retractions, which the interests of humanity and the public opinion of Europe require of her, then it will be difficult to say that she is entirely wrong in having sought to precipitate a crisis in in which she was bleeding to death. But if this is a first forward step in an aggressive and defiant policy—if Austria seeks to enter Sardinia as the armed apostle of absolutism and of ultramontane priestcraft—if she has taken up her old world mission of bidding the bodies and coercing the minds and consciences of all human beings born in Italy, then the fact of her having been the first to commence this war will be no unimportant item in the great indictment which will be pressed against her. But, whatever may be her ultimate intentions, she has by her precipitancy done the Emperor of the French this great good: Whereas three days ago, all Europe looked upon him as an imperial robber, seeking an occasion to let loose his prepared armies upon a peace-loving neighbor, the world will see in this sudden start and in the hasty and unready preparations of Napoleon III. some evidence that after all his menaces he had not intended to provoke the combat which Austria has now commenced.

The great question for us to consider, however, is not how Austria stands, or what Peace France hastens, or even how Sardinia may be overrun, but what is the position and policy of England. Lord Derby has said that, "If war breaks out, whatever be the consequence, our neutrality, as long as it may last, must to a certain extent be an armed neutrality, enabling us to take our part on that side, whatever it may be, which the honor, the interests and the dignity of the country may indicate as best deserving of our support." These words, coupled with others bearing upon the occupation of the shores of the Atlantic, tended to a scarcely ambiguous intimation that if the events of the impending war should lead French troops into the Lombardo-Venetian kingdom, England would appear as a combatant in the *melee*. We ventured to comment upon those words in a tone of remonstrance. Now that the event appears more probable, and its preceding circumstances almost certain, we think it right to reiterate our protest against engaging England, either by alliance, or menace or guaranty, so as to draw her into this purely Continental quarrel. Surely we are not going to commit over again the faults committed by our fathers, and to burden ourselves with debts and obligations too great for ourselves or our sons to bear in the pursuit of some chimerical notions as to what we should like to see occur among our neighbors. We say, at all risks and at all events, keep England out of this struggle between two dynastic powers. What have we, a free constitutional people, to do with the struggle between two despots, one of whom represents the principles of absolute power and priestly dominion, and the other the despotism delegated by pure democracy? If it must be so, let them fight; no English statesman can suppose that by weakening each other they can become more dangerous to us.

Public Sentiment in England—Effect of the War on the British Ministry.

[From the European Times, (Independent,) April 23.]

The step which Austria has taken with regard to Piedmont, throws all other contemporary events into the shade, and we learn without surprise that, when the news transpired, the funds fell one per cent., although it was late in the afternoon of Thursday before the ominous statement became known, and business for the most part had closed. Lord Derby is certainly unfortunate in dissolving at a period so critical, for, while events of the deepest interest are occurring in Central Europe, the British nation will be engaged in the fever heat of a general election. It is easy to conceive the Premier's vexation at the policy which Austria has pursued, especially after the strong eulogy which he pronounced in the House of Lords, in the beginning of the week, on her forbearance and magnanimity. The quarrel, too, had just arrived at a stage which rendered it susceptible of settlement. Piedmont had consented to a general disarmament, and France had agreed to a diplomatic or military commission to settle the terms of the disarmament, as the Congress might determine. But all is thrown to the wind now, and the furies are let loose. The demand upon Piedmont to disarm and to dismiss her volunteers within three days or to accept war as the alternative, closes the door apparently to all further negotiations, and the question arises—supposing Piedmont to refuse, as she is almost certain to do, considering the strong language she has used throughout the war of words which has preceded the final struggle—what time must necessarily elapse before the Austrians can reach Turin and the French meet them there?

The moral advantage is now on the side of France, for, while this bold and decided step has placed Austria in the wrong, it places Louis Napoleon in the right, and instead of being the aggressor, he will appear before the world to be acting on the defensive—forced into a struggle from which he could not escape, albeit a consideration of all the facts would show that his whole policy from the first of January last has been to bring the quarrel into the position in which we now find it. No wonder, then, that Lord Derby has telegraphed to Vienna, imploring Austria to withdraw from the position she has taken respecting the three day's ultimatum, but Austria has gone too far to escape—has compromised herself to an extent which will compel her to fulfill her threats if the conditions are refused, and thus will be lighted the flame which can only be extinguished by rivers of human flame.

The course which Austria has pursued in this business will make a strong impression throughout Europe, and public opinion, in this country, at least, will be brought out powerfully in favor of Piedmont. The manoeuvre is clear, but it is likely to bring retributive justice in its train. Perhaps, under any circumstances, a collision between the great Powers of the Seine and the Danube was inevitable, but the circumstances under which it is now almost certain to occur, must tell against Lord Derby at the hustings. His sympathies will be disadvantageously construed, and he will be held up as the abettor of a grinding despotism, whilst perhaps his only object in the high ground which he took was to preserve the peace of Europe. Fortune seems to favor some men, while she frowns upon others. Two years back, when Lord Palmerston dissolved on the Chinese war, every arrival from the East brought some scrap of information which heightened the national indignation against the Celestials, and this, it is needless to say, added amazingly to the personal popularity of the then premier, and contributed largely to swell his majority. The contrast is striking in the case of Lord Derby.

It is some satisfaction to know that the elections for the boroughs and counties will be over in a much shorter time than is usually occupied with such struggles. By Saturday next, April 30, many of the borough and city contests will have been decided, and early in the following week the whole of them. By the beginning of May the composition of the new Parliament will have been pretty accurately guaged, and it will then be seen whether we shall have a change of government, and what complexion the domestic and foreign policy of the country will assume. So far, the election prospects are decidedly against the Ministry, and the continental events of the next fortnight will probably strengthen the adverse tendency.

The Policy of Bright and Cobden—Non-Intervention.

[From the London Star, (Organ of the Radicals,) April 22.]

Meanwhile, what more immediately concerns us is, that our rulers should be taught to keep clear of these complications. The quarrel is a very pretty quarrel as it stands, and we have no call to embroil ourselves with it. Let the despots strive with the despots of the earth. Happily for us, we are, for the present, at least, not touched in any interest, not bound by any obligation, which renders it necessary for us to intermeddle. It is fortunate that at such an emergency the people have an opportunity of giving formal and authoritative utterance to their will on this matter. Let it be given calmly but clearly and earnestly. Warned by the gross delusion so recently practised upon us, when in the case of the Russian war we were taught to expect freedom for the nation from a conflict in which, as Mr. Cobden most happily expressed it, we had a despot for our enemy, a despot for our client, and a despot for our ally, let us not shame our reason by falling again into the same snare. It is indeed, gratifying to observe that everywhere at the meetings held in reference to the coming election no sentiment is held in such cordial gratification by the people as that which proclaims non-intervention as the true policy of Engl nd at this crisis.

Taking it Coolly.

A delinquent husband is thus advertised in Chautauque County, New York, by his loving spouse:

LOST, SRAYED OR STOLEN—An individual whom, in an unguarded moment of loneliness, I was thoughtless enough to adopt as my husband. He is a good looking and feeble individual, knowing enough, however, to go in when it rains, unless some good looking girl offers her umbrella. Answers to the name of John. Was last seen in company with Julia Harris, walking, his arm around her waist, up the plank road, looking more like a fool, if possible, than ever. Anybody that will catch the poor fellow, and bring him carefully back, so that I may chastise him for running away, will be asked to stay to tea by HENRIETTA A. SMITH.

$5,000 in Gold from Pike's Peak.

[From the Missouri Democrat 9th.]

The steamer War Eagle left Leavenworth City on Thursday evening, the 5th inst. Immediately before her arrival there, Hemingway & Co., bankers, had received a consignment of five thousand dollars in gold dust, by an express direct from Pike's Peak. The clerk of the boat received the information from Mr. J. B. Stockton, of Leavenworth City.

The War Eagle has on board one hundred and ten thousand dollars belonging to merchants of New Mexico and Missouri River towns, who have come here to purchase goods.

The sum named above includes $5,000 for the State Savings Institution. It is all gold.

In addition to the above, the steamer Wm. H. Russell, due here last night, will bring about one hundred and fifty thousand in gold, the proceeds, as is stated, of several runs made upon the interior branch banks, by St. Louis bankers.

The Great Fire in Pittsburgh.

LOSS OF TEN STEAMERS.

Full Particulars.

[From the Pittsburgh Gazette, 8th.]

On Saturday, at about 12 o'clock, M., the alarm of fire was given at the wharf. The steamer Minerva, with a large pleasure party of ladies and gentlemen from Wheeling, had just backed out to start on her down trip, when by ringing her bell she sounded the first alarm.

The fire originated on the Henry Graff, which lay well up the levee, but was wedged in the midst of several large steamers. The fire took on board of her just at the junction of the lady's cabin with the gentlemen's, but how is not exactly known. Some said it was from oakum, some from a little furnace using at the time for some repairs, but all these were mere rumors, and as such we give them. The fire took by some accident that will probably never be explained.

The fire spread with the most fearful rapidity. In a few moments the following boats were in flames and totally destroyed:

Cremona, Captain	Doyle.
Belmont, "	Trimble.
Potomac, "	Harry.
Commerce, "	Hendrickson.
Panola, "	Mason.
Jennie Gray, "	Beares.
Henry Graff, "	M'Clintock.
Council Bluff "	Lewis.
James Wood "	Herdman.
J. H. Conn, "	Woodburn.

They were all of them stern-wheelers, and nearly all first rate boats—several of them not a year old.

The Cremona was dragged out from her berth before she was fairly on fire, but a smart breeze blowing at the time, the flames leaped, caught and enveloped her almost in an instant.

The Belmont was fairly drawn out, and drifted down past the whole burning mass, without catching, as the wind drove the flames from her. At last, the heat became so intense that all had to flee. She stuck or stopped just beside the J. H. Conn, the lowest of the tier, and there they both burned together.

The Clara Dean was the next below the Conn. A dozen men were on board of her, and the heat was already greater, almost than they could bear. With poles and planks they pushed her from the shore, and the wind taking her, she was driven up, at a fearful rate under the circumstances, towards the flames of the Belmont and Conn. At this juncture Capt. Batchelor and Col. Robt. Finney rushed on board of her. One of them made fast a line which he had procured and ran ashore with the end of it. The crowd caught hold of it, and pulled her down the levee out of danger.

All the other boats, which were in number some thirty or thirty-five, managed to drop down the river in a solid mass. The Hazel Dell, nearly full of goods, got out of danger; so did the Economy. Several tow boats came on to the rescue, and in the course of a few moments they had all got a rendezvous below the mouth of Market street and to windward of the flames.

Thousands of people assembled on the broad levee, and all the engines of the city were promptly on the ground. They did not try to save the boats, for that would have been useless. They had all they could do to save the row of buildings on Water street. With all the water they could throw, the heat several times kindled and burst into a flame on the wood work of the buildings. Every thing was very dry, and cinders flew over the space and lighted in showers on the roofs, setting fire at various points. All this, however, was speedily extinguished, and the flames soon spent their fury on the boats, which one after another sank and smouldered into steaming masses of black and pungent smoke. The whole, by 2 o'clock, presented a gloomy picture of a maze of iron rods, ruined engines, and smoke pipes, which one rarely sees paralleled. The relics of ten boats stretching from near the Monongahela bridge to near the mouth of Market street, told the tale of ruin of a two hours' fire on such a mass of combustibles.

The following are all the statistics we have been able to gather, and probably they present all the prominent facts that are of interest to anybody:

The steamer Belmont, Capt. Trimble, was owned by George W. Ebbert, Jacob Poe, Thomas Poe, George Poe and Elizabeth M'Clure. She was insured in the Monongahela Insurance Co. for $3,000, in the Citizen's for $3,000. Total $6,000.

Cremona, Capt. Doyle, was owned by Andrew Ackley. She was nearly a new boat, having made but a few trips, and was entirely uninsured.

The Commerce, Capt. Hendrickson, was an oldish boat. She was owned by J. R. Hendrickson, David Hendrickson, Wm. Parkinson, C. Carew, Mark Sterling, Harry Mason, J. J. Robinson and G. W. Rowley. She was insured for $4,000 in the Citizen's and $4,000 in the Eureka. Total, $8,000.

The Council Bluff, Cap. Lewis, was owned by Samuel Lewis and William Dilworth. She was insured in the Citizen's for $3,000. She had just been put in first rate repair, and had made but two trips since.

The Joseph H. Conn, Capt. Woodburn, was owned by Jas. Woodburn (Captain) and B. F. Woodburn, of Shousetown, J. C. Henderson, of Sewickley, Nelson Crooks, of Belleville, Va., and J. W. Chambers, of Pittsburgh. She was insured for $6,000 in the Monongahela Insurance Company, for $6,000 in the Eureka, and for $1,500 in the Pittsburgh. Total, $13,500.

The Jennie Gray, two seasons old, was owned by Hannah J. J. Beares and Elizabeth Jane Barton. Capt. Beares was in command. She was insured for $3,000 in the Citizen's.

The Henry Graff, Capt. McClintock, had just begun to take on her cargo for Pike's Peak. The fire began on her. She was insured for $4,000 in the Pennsylvania. We could not learn of any other insurance. She was owned by George L. McClintock (Captain) and John Hollenbach.

The Potomac, a nice trim boat, of which our friend Captain Harry was in command, was owned by him and Jonathan Crane, of Rochester. She was insured in the Monongahela Company for $4,500, and in the Eureka for $4,500. Total, $9,000.

The Panola, Captain Harry Mason, was a new boat, just brought out last spring, and she had been very lucky. She was owned by John W. Mason, J. S. Pringle, William Buffington, and A. J. McDougal. She was insured in the Monongahela for $3,000, in the Western for $3,000, and in the Eureka for $5,000. Total, $11,000.

The James Wood, Capt. Herdman, was one of the largest-sized stern-wheelers. She was owned by Bernard Young, James McGovern, A. J. Wood and Mark Sterling. She was insured in the Citizen's for $6,000, and in the Pittsburgh for $2,300. Total, $8,300.

The Delaware Mutual had the small risk of $100 on a portion of cargo on one boat. The total of insurance was, therefore, as far as we are able to learn, and we think we have all that was insured in this city at any rate, $71,400, distributed as follows:

Citizens'	$24,000
Monongahela	16,800
Eureka	19,500
Pennsylvania	4,500
Pittsburgh	3,800
Western	3,000
Delaware Mutual	100
Total	$71,800

In the midst of the ruin of so much property, we are happy to state that not a single life was lost, nor, as far as we can say, was there a person in any way injured, by accident or otherwise. The average value of the boats was not less than $15,000 each, so that the total loss was about $150,000, of which less than one-half was insured. Several of these boats had begun to load, and of course their goods were destroyed. A large amount of goods was also damaged on the levee. They were lying so near the water's edge that they could not be approached.

This was the most disastrous conflagration of steamers we have ever been called upon to record in this city. This, at one blow, strikes out 10 from the 95 steamers owned in Pittsburgh, and makes room for the building of others.

Mr. Crittenden—The Kentucky Canvas—The Treaty between Buchanan and Douglas—Another Decision of the Supreme Court.

WASHINGTON, May 6.

[Correspondence of the N. Y. Evening Post.]

Mr. Crittenden's recent movement in Kentucky in supporting the opposition candidate for Governor, not quietly, but with a public speech, excites comment here. Bell, the opposition candidate for Governor of the State, stands upon precisely the same platform as that which holds Senator Brown and Jeff. Davis. He goes in for the direct intervention of Congress to sustain slavery in the Territories. Knowing this, Mr. Crittenden comes out in a public speech in support of the man. He would not do this if he had the slightest expectation of a nomination at the hands of the Republicans; and his course is thought to indicate an entire relinquishment of any Presidential aspirations—if he ever had any.

The canvass in Kentucky shows what the position of the so-called "opposition" is in the entire South.

The rumor that the President and Mr. Douglas have concluded a treaty of peace is a mistake. Negotiations are pending, however. The point in dispute is the non-intervention principle. The President wants peace in the party on the platform of no legislative enactments by Congress *or the territorial legislatures*. Nobody intimates *how* the territories are to be schooled into the new doctrine, or whether Congress is to *compel* non-interference. Douglas is in doubt. If he accepts the cheat, will not the people discover that popular sovereignty is all moonshine!

Then, what makes matters worse, Forney is declamatory and indignant over the proposed terms, and if any such doctrine is taught by Douglas or his friends, he boring the ear of that class of Democrats, will expose its trickery. That Douglas desires a return to the "bosom" of the party is certain enough, and he must have modified or explained his views before he could get the hearty support of Roger Pryor, which he has at present.

Look out for the new decision of the Supreme Court *immediately after* the next Presidential election. It would be made now, but for fear of its effect upon the canvass. If a Democrat is elected to the Presidency—I mean, of course, a sham Democrat—as certain as there was a Dred Scott decision, there will be another to the effect that a territorial legislature cannot interfere with slave property. Knowing that Congress can never be made to interfere upon the side of slavery, because no such majority can be got in the House of Representatives, the slave power will content itself with such a decision of the Supreme Court, trusting to its effect upon the people of the Territories; and if Mr. Douglas things that this doctrine will be tolerated by the Democrats of the free States, he will agree to it.

DEFINITELY POSTPONED.—The applications made by the agents of the west end of the Peoria and Burlington Railroad in New York, for the parties to sell the railroad from Galesburg to East Burlington has been indefinitely postponed. The work on the east end of the Peoria and Eastern Extension Railroad, has commenced in good earnest between Gilman and Logansport, and will be prosecuted with all possible speed to a final completion.—*Peoria Transcript.*

Gov. Chase on Naturalization.

Gov. Chase of Ohio, in forwarding to the State Central Committee a communication addressed to him by German Republicans of Sandusky and vicinity, with reference to the proposed naturalization law in Massachusetts, takes occasion to express his own views. He feels "very confident that the committee concur fully in the almost, if not entirely, unanimous Republican opinion in this State, that no discrimination should be made by amendment of a State Constitution or otherwise between citizens of foreign and citizens of native birth.

"Such has always been my own opinion. I was therefore opposed, as is well known, to the proposition urged upon the consideration of our Legislature, some two or three years ago, for the incorporation, by amendment, into our State Constitution, of a provision similar to that proposed similar to that proposed in Massachusetts, requiring one year's residence only, after naturalization, instead of two.

"I have constantly endeavored to reconcile rather than exasperate difficulties concerning the naturalization question, as well as concerning every other, between citizens of whatever origin engaged on the same side in the momentous contest now in progress between Freedom and Despotism—between Reform and mal-Administration, And I am gratified to know that in Ohio these differences have almost—if not wholly—disappeared.

"Naturalized and native citizens now generally agree that the evil chiefly complained of can be satisfactorily remedied by such a change in the laws as will provide for naturalization after three instead of five years' residence, and for the issue at that time of certificates conferring all rights of citizens, except suffrage, immediately, and that right, also, after two years' longer residence, making five years' residence in all, as now. No one doubts, I think, that some such provision, remedying effectually the alleged evil, by interposing a considerable period between the issuing of the certificate of naturalization and the accruing of the right of suffrage under it, and yet enlarging instead of abridging the privileges now enjoyed by immigrants, is much better than any amendment of the State Constitution."

PERSONAL AND POLITICAL.

A movement is contemplated for the purchase of Ashland from James B. Clay.

—Collantes, Spanis ex-Minister of Public Works, has been impeached by the Cortes, for having, in 1854, defrauded the Treasury of $50,000.

—Wilhelm Bruno Lindner, the Professor of Theology at Leipsic, recently dismissed for theft, has been succeeded by Dr. Lipsius.

—The Washington *Constitution* denounces in unsparing terms the course of the Anti-Lecompton Democrats of Pennsylvania, and quotes approvingly the comments of the Chicago *Times* upon the speech of Hon. John Hickman.

—David Dale Owen, Esq., of New Harmony, has been appointed, by the Indiana State Board of Agriculture, which met at New Albany on Thursday last, as the Superintendent of the geological reconnoisance of that State authorized by an appropriation of $5,000 at the last Legislature.

—A South Carolina Court has compelled an unwilling fellow to pay for the support of a woman to whom he was married, for a joke, by a sham magistrate, the lady, however, taking it all in sober earnest.

—The last words of Bishop Doane were: "I die in the faith of the Son of God, and the confidence of His One Catholic Church. I have no merits—no man has; but my trust is in the mercy of Jesus."

—The marble statue to Commodore Perry, to be erected at Cleveland, on Lake Erie, has been contracted for, and it is to be ready for inauguration on the 10th of September, 1860. It is to cost $6,000.

—Mrs. Partington says, that just before the last war with England, "circumstances were seen around the moon nightly, shooting stars perambulated the earth, the desk of the sun was covered with black spots of ink, and comments swept the horizon with their operic tails. Everybody said it profligated war, and sure enough it did come. Its costiveness was felt throughout the land, but the bravery of General Jackson expiated the American citizens, and foreign domines soon became a bye-word."

—Mr. Charles T. Congdon writes as follows to the Boston *Courier*:

"There is a little paragraph floating through the newspapers, importing that I am no longer connected with the N. Y. *Tribune*. My connection with that paper is one which I can at any time dissolve, or which the proprietors can dissolve; but that I intend to try to get a living by writing for the monthlies, I emphatically deny. I am not a fool. CHAS. T. CONGDON.

—The Washington correspondent of the Philadelphia *North American* says:

"The Democrats in Tennessee write despondingly to their friends here of the prospect in that State next August. They do not pretend to claim any of the former majorities in the Congressional districts, and really fear losses which they are not yet willing to confess openly. The Gubernatorial contest commenced on Monday, and the State will be thoroughly canvassed during the next three months."

DR. CUTTER'S IMPROVED

Skirt Supporter,

Is an Article of Great Utility, which should be

WORN BY EVERY FEMALE.

This Supporter takes the weight of the skirt upon the Shoulders, the proper place, and relieves the stomach and abdomen, of that confinement and downward pressure, which is, by the most able Physicians, said to be the greatest cause of so much weakness, and premature death among females. By taking the weight of clothes from off the stomach upon the shoulders, one is enabled better to stand erect, and thereby expand the chest and breath more freely. This, every sensible person knows, is necessary to the full enjoyment of health.

There are few ladies who have worn their clothes supported by the waist who have not realized the faint, and often distressing feeling, and also weakness of back consequent thereto. Then why not from others take warning ere it be too late.

Manufactured by CUTTER & WALKER, Lowell, Mass.

H. M. HIGGINS, MUSIC PUBLISHER, 45 Lake street, has still on hand the largest stock of Musical merchandise kept by any other house in the Northwest. I am Sole Agent for the celebrated "Model Melodeon," made by Mason & Hamlin, Boston; also, agent for Lighte, Newton & Bradbury's PIANOS, with the "Patent Arch Wrest Plank," which is used by no other manufacturers in the world, and is the most important mechanical improvement. Instead of using iron, as most makers do—which gives the instrument a metallic and disagreeable sound—or using wood in the ordinary way, which renders it necessary to weaken the part of the instrument wherein the greatest possible strength is required—by cutting across the grain of the wood, Lighte, Newton & Bradbury have a method whereby they spring this patent Wrest into proper form by the aid of steam and powerful machinery. A strain of ten tons will make no impression on the arch, while the fibres of the wood instead of being weakened by the continuity being interrupted at short distances, have their natural power of resistance greatly augmented by the peculiar form they are made to assume in the Patent Arch Wrest. Every instrument is warranted.

Medicines, &c.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded Entirely from Gums,

Is one of the Best PURGATIVE and LIVER MEDICINES now before the public.

LIVER INVIGORATOR

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILLIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents the Nightmare.

Only one dose taken at night loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventative of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhoea in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

A few bottles will cure Dropsy, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who are Using it are giving their Unanimous Testimony in its Favor

☞ Mix water in the mouth with the Invigorator swallow both together.

PRICE ONE DOLLAR PER BOTTL.

MORE TO BE ADMIRED THAN THE

RICHEST DIADEM

EVER

Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

Because it is the ornament God Himself provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, harsh and dry, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

NEW YORK, April 19th, 1858.

DR. WOOD:—Dear Sir:—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly,

S. THALBERG.

"Drych a'r Gwyliedydd."

WELSH NEWSPAPER OFFICE, No. 13 Nassau street, April 12th, 1858.

PROF. O. J. WOOD:—Dear Sir:—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial, it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW.

NEW YORK, July 25th, 1857.

PROF. O. J. WOOD:—With confidence do I recommend your Hair Restorative as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

J. G. KILBY.

PROF. WOOD.—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.

Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent. more in proportion, and retails for three dollars.

LOTS FOR SALE AT LAKE FOREST, ILLINOIS.

The lots belonging to LIND UNIVERSITY, and now offered for sale present favorable inducements to persons wishing to enjoy the pleasures of country life within an hours ride of the City of Chicago.

They are located at Lake Forest, on the west bank of Lake Michigan, elevated one hundred feet above the level of the Lake, about twenty-six miles north from Chicago, on both sides of the Chicago and Milwaukee Railroads, abound in mineral and other springs and natural beauties, and in the opinion of our best physicians the advantages for a healthful resort and residence are not to be exceeded by any on the sea shore or in the Western country.

A fine Academy building (the preparatory department of Lind University) has been erected the past season, and is now in successful operation in charge of S. F. Miller, A. M.

A new Passenger Depot, a Store and more than a dozen dwellings have been erected within the past year.

In addition to the regular through trains an accommodation train taking passengers on commutation tickets at half the regular fare, leaves Chicago every evening, and returns every morning, thus affording business men an opportunity to spend the day in the city and be with their families at night.

A good hotel has been opened and in successful operation for more than a year past.

The Lake Forest Association have also a few lots, mostly for farming purposes, lying near the town, containing from three to ten acres each, which will be sold at reasonable prices, and on usual time.

The subscriber has, within the past year, sold over twelve thousand dollars worth of the lands belonging to the University and Association, and proposes to sell a few more lots to persons who wish them for immediate improvement and cultivation.

WATER WHEELS.

Vandewater's Recently Improved

Jonval Turbine Water Wheel.

OFFICE 81 SOUTH CLARK STREET,

CHICAGO.

I offer this Improved Turbine Water Wheel to the public with the fullest confidence and assurance of its

Superiority Over All Other Wheels.

Without any exception. They are well adapted to any place and have been tested in Mills of all descriptions. They give a very steady and uniform speed, and are well adapted to very high as well as very low heads and falls. They will work well in back water without any material loss of power, and are not troubled with ice, as they are set inside of the fore bay and discharged underneath. It requires a small amount of gearing to get up a high speed; costs but little to set up, and runs upon a step that needs no oiling, and will last for years. This wheel is capable of yielding a power of from 70 to 85 per cent. of the whole power of the water (according to the degree of finish of wheel) under high heads and falls, and in all cases it is warranted to work up to the power laid down in the table, and to give satisfaction when properly put up and geared.

OUTRAGEOUS BRUTALITY.—It is seldom that we have heard, among the many instances of crime and outrage that daily come to our ears as journalists, anything so disgusting, and, under the peculiar attendant circumstances, so painful to contemplate, as the unnatural occurrence which it is now our most unwilling duty to record. On Wednesday of this week, Thomas Blakesley, an old man over sixty years of age, the principal of a select school in this city, was arrested on a charge of committing a rape on two of the pupils under his charge, little girls about ten years of age. He was taken before A. F. Swander, Esq., and after an examination of the facts, which were too glaringly revealed to admit of a doubt in the minds of the magistrate as to his duty in the premises, the silve-haired sinner was bound over in the sum of one thousand dollars to appear at the approaching session of the Circuit Court, in default of which he was committed to jail. This man was arrested one year ago for the same offence. We have no taste nor inclination for comments on this unparalleled and atrocious affair.—*Rock Island Register.*

Remarkable Accident at Wheeling—A Man Thrown 100 feet in the air, and Escaping Alive.

[From the Wheeling Intelligencer, of Saturday.]

A most frightful, and, at the same time, most remarkable accident occurred at the Catholic Church, yesterday morning. Some twenty persons were engaged in putting up the new bell, which arrived the evening before. There was a windlass erected on the ground, to which was attached a snatch-block and shieve. Immediately above the open space in the cupola, to which the bell was to be drawn up, there protruded a beam, to which was attached another snatch-block and pulley, and the bell was to have been conveyed to the top by means of strong ropes, working through these sieves by the power of the windlass and cylinder upon the ground. The bell had been raised in this way almost up to the open space in the cupola, and the men were just ready to pull it in. A man named Thomas Newton was below, engaged in guiding the folds of the rope as it wound round the cylinder. To do this, he had a firm grasp upon the rope. When the bell had reached a great hight from the ground, one of the cogs in the wheels of the windlass fixture gave way. Another revolution of the wheel ripped off all the cogs; the bell fell to the ground, and Newton, who had hold of the lower end of the rope, was carried up, with frightful velocity, a distance of one hundred feet from the ground, and about four feet above the aperture where the bell was to have been taken in. For the instant, every one was surprised beyond measure, and before those engaged in the work could comprehend what had happened, Newton, with his hands all lacerated and bleeding, worked himself down opposite the aperture, and called for help to those within. Bishop Whelen, who was on the platform in the cupola, reached out at the risk of his life almost, and seizing Newton by the waist, pulled him from his awful position. The accident struck everybody with amazement, and all but the eye-witnesses were loth to believe in the incredulous feat. The bell weighed three thousand seven hundred pounds, and as it fell without hindrance, some idea may be formed of the rapidity with which Newton ascended. He says he thought of letting go the rope, but before the thought was clearly defined, he was at the beam, a hundred feet above. He *had no time* to let go his hold upon the rope. Some cogs and pieces of machinery were hurled a distance of two squares from the church, and a Mr. Smith, who was standing near, received an ugly wound in the face from a flying particle. Mr. Newton was taken to the office of Dr. Hupp, where his wounds were dressed. The flesh was all torn from the palms of his hands, even to the bone, which is supposed to have been done by the death grasp, and his sliding down the rope during the swift passage into air.

Volunteers for the European War.

The army of Sardinia has received important additions to its ranks in the volunteers that have been flocking for the last few weeks to Turin. Sixteen thousand young men from Lombardy, Tuscany and vicinal states have gathered in the capital city of Sardinia, to enrol themselves under the standard of Victor Emmanuel, with whose cause has become so firmly associated that hitherto delusive theory of the regeneration of Italy.

Among the volunteers, are some who have previously been prominent in Italian affairs. About one-half of the Neapolitan exiles have left England for Piedmont, there to take their part with pen or sword in what they firmly believe will be the war of Italian liberation. These exiles have been furnished with means to take them to Turin, and support them modestly while there. Among them is the Duke of Cabellino, who, though worn down and emaciated, has, at the call of Italian liberty, arisen like the sick man at the voice of Omnipotence. Poerio is still in London, improved in health and appearance.

George Manin, a son of that Manin who so ably defended Venice, whose recent death created so deep a regret among Italian patriots, has also joined the rank of volunteers. His name will not be without its influence.

In this city the recent news has excited a lively sensation among the various European exiles who have found a refuge here. We understand that for several months a number of well-to-do Italian citizens have been winding up their business, to return to Europe at the first outbreak of hostilities. The next European news is anticipated by these individuals with the intensest interest, and the formal declaration of war will be the signal for their immediate departure.

On the other hand, there are many German citizens who sympathise with Austria, and a Cincinnati journal informs us that within the past two weeks upwards of thirty young Germans have left that city for Europe, for the purpose of taking part in the coming imbroglio between their countrymen and the French.—*N. Y. Evening Post, 7th.*

A Jewish Item.

As a consequence of the Mortara affair, an attempt has been made to enforce in Austria, under the Concordat, the regulation that no Christian servant should enter a Hebrew family. This fact has been noticed by the Jewish merchants of Europe, and at Frankfort a wealthy stock-broker, says the *Jewish Messenger*, "after the evening 'change,' moved that no Israelite should in future do business in any description of Austrian stock. The motion was carried by acclamation, and the result forwarded to Vienna. In Amsterdam the wealthy houses of Lehren, Rubens and others resolved to taboo Austrian paper, and Baron James Rothschild, of Paris, gave telegraphic instructions to his nephew to wait on Count Buol, and remonstrate with him. He is said to have observed to the minister that he was a cosmopolite, and could live as well elsewhere as in Austria."

The result of this commercial demonstration was that Austria, preferring to offend the Holy Father rather than the Jewish merchants, gave orders to the officers of the different provinces not to throw difficulties in the way of those Hebrew families who might wish to engage Christian servants.

The Baron Rothschild, to whom few European potentates could dare deny an audience, had recently a personal interview with the Emperor Francis Joseph, in which he represented to that Monarch the unpopularity of the law that has been so suddenly repealed. The Emperor replied that he knew nothing of it.

CURIOSITY GRATIFIED AND SATISFIED.—Some Newporters are renowned for their prying curiosity. Their peculiarity is pointedly hit by the following, which, says the Newport daily *News*, is "aimed at somebody:"

"Duncan Pell, Esq., has just commenced the erection of a new fence in front of his mansion, on Mary street, in this city. On one of the posts is the following in manuscript:

'The proposed fence is to be 60 feet long, 3½ feet rails over coping; to be finished this week. Mr. Easton is the carpenter, and Mr. Fludder the mason. The work is to be done by the day.

SOMETHING NEW!!!

MITCHELL'S PATENT

Metallic-Tipped Boot and Shoe.

An improvement has been applied to Boots and Shoes, by which a Great Saving in Expense is made. Every Boot and Shoe Dealer knows that Children will wear out at the toe the best constructed shoe in four to six weeks, and that it has hitherto defied the skill of manufacturers to obviate this difficulty.

THE "METALLIC TIP"

meets and overcomes it. A small piece of copper is neatly fastened to the toe of the Boot or Shoe, affording a complete protection to it, and rendering the efforts of the most inveterate stamper ineffectual to kick or wear it out.

We present this invention with the fullest knowledge of and experience in its Practical Utility. Having now for nearly two years been subjected to the severest tests, it has by its own intrinsic merits, actually surmounted every objection that could possibly be brought against it, as the accompanying certificates, which are but a fair average of hundreds of others, will abundantly corroborate. We have no hesitation in saying that the Metallic-Tipped Shoe is destined to entirely supersede, for Children and Youth, the old style; and we consider it a moderate statement, that one pair of the Metallic Tips will outwear two to three pairs of the old style, making a saving of nearly two-thirds in the expense of shoes.

MESSRS. WADSWORTH & WELLS,
OF CHICAGO,

Have been appointed Agents for the sale of the Boots and Shoes, and are authorized to dispose of Town and County Rights.

Communications addressed to them or the undersigned will receive proper attention.

SIDEWALK NOTICE.

Clerk's Office, Chicago, Ill., May 4, 1859.

Public Notice is hereby given, that the Common Council have ordered a Sidewalk to be constructed, as follows: On the east side of North Clark street, from Chicago avenue to the Cemetery, in the North Division, to be five feet wide, of 2 inch plank, laid on bearings of not less than 3 by 4 inch scantling, let into the earth or the earth filled in between them, so as to form an even grade.

Now, unless the same shall be constructed in the manner required by the Ordinance relative to sidewalks, on or before the thirtieth day of May, 1859, it will be built by the Street Commissioner, and the cost thereof, charged on the premises adjoining thereto.
my7-10t H. KREISMANN, City Clerk.

NOTICE.—Sewerage Commissioners Office, Chicago, April 4, 1859.

The Board of Sewerage Commissioners have revoked all existing licenses for laying private drains to connect with the new sewers. That work will hereafter be done under the supervision of officers or agents of the Board.

Persons wishing drains laid will please apply at this office, or to Mr. W. H. Clarke, Assistant Engineer.

J. D. WEBSTER, Acting Com'r.

The above regulation is so far modified as to permit parties to make their own drains or lay them by contract with any employee; they may employ others to do it for them, no license being required. Permits must be taken out as heretofore, and the Sewerage Commissioners will not be responsible for the character of work not done by their own officers or agents. They will also retain all the right of supervision [illegible] for the proper construction and care of which the owners of property will be responsible. By order of the Board,

New Publications.

HAVE YOU EXAMINED APPLETON'S

New American Cyclopedia.

It is a credit to American Literature, and is worthy of your attention. Please call at

NOS. 39 AND 41 LAKE STREET.

Take an hour to look it over and see for yourselves. Sold only by subscription, and supplied by

S. C. GRIGGS & CO.,

Sole Agents for

ILLINOIS AND WISCONSIN.

[From the Hon. Theophilus Parsons, LL.D., Professor of Law in Harvard University.]

It is the very best Cyclopedia for practical use ever published. I have some knowledge of all in our own language, and of a few of those of the continent of Europe. The book embodies and adequately represents the knowledge available at this day for a work of the kind. Its merit and cheapness must eventually place it in every library.

[From the N. Y. Courier and Enquirer.]

The New Cyclopedia furnishes a greater amount of information, in a more interesting manner, and a more accessible shape, than can be obtained in any other quarter for four times the sum that it will cost.

[From the Woonsocket Patriot.]

One of its greatest merits is that it gives us the latest information concerning the progress of the arts and sciences, whose march is ever onward.

[From the Baltimore American.]

Every subject to which a student or man of general information may desire to refer, will be found in this work properly classified. There is no doubt it will be the standard of reference in every library, public and private.

[From the Boston Pilot.]

It is a perfect treasury of knowledge, in all branches of the arts and sciences, in literature, history, biography and geography.

[From the Indianapolis Daily Journal.]

If one has forgotten a name, when a historical character lived, how to build a bridge, what the teachings of Aristotle were, where a South Sea Island lies, what a Congressional measure may have been, what the latest scientific developments are—he has only to turn to his "Appleton," and find just what he wants.

[From the N. Y. Chronicle.]

We have found it clear, succinct in its statements, profound in its views, learned and comprehensive in its materials, and full of the information which one expects to obtain from a book of reference.

[From the St. Louis Democrat.]

The value of a work of this kind, to every man of intelligence and learning, can hardly be estimated; it will surprise us if this Cyclopedia does not find its way into the homes, and to the firesides, of nearly every intelligent family in the Union.

[From the Richmond Examiner.]

It will really be a Dictionary of Universal Knowledge. The scholar and professional man will find it stored with references in every sphere of learned inquiry.

Published by Subscription, in fifteen large 8vo volumes, each containing 750 two-column pages. Volumes I., II., III., IV. and V., now ready, and subsequent volumes will be issued every two or three months, each payable on delivery.

MONETARY.

TUESDAY EVENING, May 10.

The money market has been very quiet during the day. The prices of wheat have gone still higher, and, under the buoyancy, the demand for exchange has been limited, under the belief that the great rise in wheat must stimulate shipments, and that the price of exchange must fall. The symptoms of weakness continue; but as yet two per cent. is charged by the bankers generally.

Discounts continue very easy at legal rates. Gold 2 per cent. Streets rates nominal at 1@1½ per cent per month. We quote the range for good paper. Little doing on any terms.

TUESDAY EVENING, May 10.

WEEKLY REVIEW.—The weather during the past week has been unusually warm and dry, and highly favorable to the operations of agriculturists, who have been busily engaged all over the Northwest, in sowing and planting. All over the southern part of the State the winter wheat crop is progressing favorably, and there is a good prospect of a very early harvest. The spring wheat crop is nearly all in the ground, and in the central part of the State it is pretty well forward. Corn planting is going on briskly, and another week or ten days of favorable weather will see the crop safely in the ground. The prospect of high prices, consequent upon a European war, willl probably stimulate farmers to sow and plant a larger breadth than they at first intended.

The following tables show the imports and exports of leading articles during the past week and since January 1, compared with the amount received and shipped during the same time last year:

The receipt of the news by the *Adelaide* this morning caused a great excitement in the Wheat market, which advanced almost immediately, 9@10c on No. 1, Red. After 'Change hours, however, the market was more quiet for a few hours, when it again became active—closing firm. Spring Wheat was also in active demand, and an advance of 3@4c was gained on Standard, and 7c on No. 2. About 140,000 bus Wheat changed hands at $1,59@$1,70 for No. 1 Red; $1,41½@$1,42 for No. 2 Red; $1,22@1,26 for Standard Spring; and $1,12@1,17 for No. 2 Spring.

Corn was quiet but very firmly held. Sales were limited to about 3,000 bushels at 76c for No. 1, market—closing firm.

Oats more active and advanced 1@2c.

Highwines advanced 1c, with considerable activity, and sales at 27@28c. Flour also shared in the excitement, and the market advanced 25c, with sales of nearly 5,000 bbls at $7,25@7,50 for Winter Extras, and $5,50@6,50 for Spring Extras.

Hides were active but prices unchanged.—Seeds quiet.

Weekly Review of Chicago Market.

TUESDAY EVENING, May 10, 1859.

FREIGHTS.—Freight during the past week has been unusually scarce and rates are low. The charters made during the week were: Schrs. Lenlan, Morning Light, Norwegian and L. B. Crocker, all with wheat to Oswego at 5½c; schr. Resolute, wheat to Wellington Square, at 6½c; schr. Black Hawk, wheat and corn to Port Sarnia, at 2½c; prop. Cuyahoga, corn to Buffalo at 4½c; and prop. Pittsburgh, wheat to Buffalo at 5c. Several vessels have been chartered during the week to carry lumber from Saginaw to this port at $1.50 per thousand feet. RAILROADS.—The railroads are still carrying fourth class freight to New York at 80c per 100 lbs, and cattle at $[illegible] per head. Flour is taken to New York by lake and rail at 40c, and to Montreal, via Collingwood, at 55c. Flour to Buffalo, by propeller, 15c.

TO-DAY—The brig Mariner was taken for wheat to Ogdensburgh at 6½c.

FLOUR—Receipts last week, 10,860 bbls; shipments, 12,304 bbls. The Flour market, which has been so long quiet and inactive, during the past week became brisk under the influence of the war news, with quite a speculative demand at an advance of 75@100c ₱ bbl. The demand has been more urgent for choice brands of Winter Wheat, the stock of which is comparatively light—estimated at from 5,000 to 6,000 bbls. Besides a good speculative inquiry, there is a better city trade, and considerable demand from Lake Superior and the lumber regions. Spring Wheat Flour, the stock of which is larger, has, within the past three days been in better demand, and for the choice brands there is an active speculative inquiry. The sales of the week have been as follows:

TO-DAY the market was firm, and quite excited, and an active business was done at a further advance of about 25c. Sales were as follows: 100 bbls mixed brands White Winter at $7.25; [illegible] bbls "Bald Co" do at 7.50; 100 bbls choice White Winter at 7.50; 1,420 bbls "Carlinville" do at 7.50; 80 bbls "Everybody's do at 7.50; 700 bbls "Bridge City" Spring Extra at 6.00; 300 bbls "Genesee" do at 6.75; 100 bbls "Stark Mills" do at 6.50; 1,300 bbls "Lyons City" do at 6.50; 400 bbls good to choice brands of Spring extra at $6.50 [illegible] closing firm.

WHEAT—Receipts during the past week, 46,136 bu; shipments, 125,910 bus. The market for the past week has been more excited than at any time since the Crimean war. Each day the market has been more and more buoyant, on account of the warlike character of the European news brought by the three steamers—the Niagara, the Anglo Saxon and the Adelaide. Speculation has run high, and although we have but a comparatively small stock of wheat on hand, the amount which has changed hands is not less than 400,000 bu. Under this state of affairs, all grades of wheat have advanced as follows: No. 1 Red has advanced during the week, 20@25c per bushel; No. 2 Red, 22c; Standard Spring, 20@24c; No. 2 Spring, 24c. The principal demand has been for No 1 Red; but there has been also a very active inquiry for Spring Wheat. During the week, about 25,000 bu Standard Spring were shipped to St. Louis to supply St. Louis millers, who had made heavy contracts to deliver Superfine flour in Boston and New York this summer. There has also been a good demand by millers in Michigan and Indiana. In addition to this there has been an increased speculative inquiry. Contrary to general expectation, this advance has not contributed towards an increase in our receipts, which will be seen to be about the same as those of the week previous; but this may be accounted for, to a certain extent, to the spring occupations of agriculturists, who have been busily engaged in planting. The shipments during the past week have been double those of any previous week—33,000 bushels to St. Louis, 5,000 bushels to Michigan millers, 20,800 bushels to Buffalo, 56,955 bushels to Oswego, and about 15,000 bushels to Canada. The sales of the week, with the grades and the prices, will be found in the following table:

Date.	No. bu sold.	No. 1 Red.		No. 2 Red.		Stan'rd Spring.		No. 2 Spring.

TO-DAY the market was again excited, and a further advance was gained of 10c on No. 1 Red, 7c on No. 2 Red, 3@4c on Standard Spring, and 7c on No. 2 Spring. Sales were as follows: WINTER—6,000 bu No. 1 Red at $1.59; 10,000 bu do at 1.60—part for future delivery; 5,000 bu do at 1.60½; 3,000 bu do at 1.61; 2,000 bu do at 1.62; 4,100 bu do at 1.62½; 6,000 bu do at 1.63; 1,000 bu do at 1.63½; 7,000 bu do at 1.64; 30,000 bu do at 1.65—part for delivery all this week at buyer's and seller's option; 7,000 bu do at 1.66; 17,000 bu do at 1.67—part for delivery all this week, at buyer's option; 6,000 bu do at 1.68—part for all this week at seller's option; 2,000 bu do at 1.69; 800 bu do at 1.70 f. o. b.; 2,000 bu do at 1.70—buyer's option all this week; 1,000 bu do at 1.70—buyer's option all next week; 300 bu do at 1.70—to-day; 700 bu No. 2 Red, at 1.41½; 700 bu do at 1.42. SPRING—600 bu Standard at 1.22; 3,000 bu do at 1.23; 14,000 bu do at 1.25; 700 bu do at 1.25½; 300 bu do at 1.26; 1,300 bu No. 2 at 1.12; 3,300 bu do at 1.12@1.13; 1,600 bu do at 1.13; 300 bu do at 1.14; 1,000 bu do at 1.15; 3,000 bu do at 1.16; 700 bu do at 1.17; 1,100 bu "Stumptail" at 1,05; 450 bu Rejected, at 1,04—all in store. Market closing firm.

CORN—Receipts last week, 89,448 bu; shipments, 60,237 bu. Though not so excited as Wheat, the Corn market has been active and buoyant—having advanced during the week from 6@8c per bushel. The demand, however has been almost entirely confined to orders for shipment, which have been fully equal to receipts, and generally for the higher grades, the receipts of which have been rather limited. The sales of the week, will be found in the following table—the prices of Canal and River being given "afloat" and No. 1 Railroad "in store":

Date.	Amount sold, bu.	River.	Canal.	No. 1
4th	30,000	73 @—c	71½ @72½c	70 @71c
5th	24,000	74 @75½	— @74	— @—

10th	3,000			— @76

TO-DAY—The market was apparently neglected. Holders however, were very firm, and sales show a further advance of 1c. Sales were:—1,500 bu No 1 at 76c in store; 700 bu No 2 at 72c in store; 700 bu do at 75c on track; 300 bu Rejected at 70c in store—closing firm.

OATS—Receipts, 9,170 bu; shipments, 8,180 bu. The demand for Oats during the past week has been more active, and the market has advanced 4@5c since the date of our last weekly review. This demand has been chiefly to fill Eastern and Southern orders; otherwise the market is quiet. Several lots have changed hands during the past few days at 49@54c for No. 1 in store, and 45c for Rejected. Some choice lots, however, have been sold at 56@57c. TO-DAY there was a good inquiry, and the sales were as follows: 1000 bu old No. 1 at 57c in store; 160 bags No. 1 at 58c on track; 500 bu mixed at 56c in store; 3000 bu (not quite equal to No. 1) at 55c afloat; 40 bags Rejected at 43c; 125 bags do at 45c.

RYE—Receipts, 856 bu; shipments, none. The market during the week has been quiet, with sales at 93@95c per 60 lbs on track.

BARLEY—Receipts last week, 3352 bu; shipments, 554 bu. There has been an increased demand during the week for No. 2 Barley, with sales at 50c in store; 53c afloat; and 53@55c in bags. No. 1 Barley is neglected, and we quote it nominal at 75c.

ALCOHOL—The buoyancy in Highwines has caused an advance of 4@5c in alcohol. Manufacturer's prices, 52@53c.

BROOM CORN—Receipts, none; shipments, none. Market quiet. Several lots of common were sold during the past week at $50. No prime offering—nominal at $120@140 per ton.

BEANS—During the week the demand has been more active, with sales at the close at 50@55c for common, and 90c @$1 for good to prime.

CORN MEAL—The market during the week has advanced about $2 per ton—closing with sales of Bolted at $32 per ton, and Unbolted at $29.75. The demand is good for shipment to the lumber regions.

COFFEE—Market steady, with a fair demand at the following quotations: Rio 11¾@12¾c; Laguayra 13@13½c; Maracaibo, 13@14½c; O. G. Java, 16½@17c; Mocha 16@17

LUMBER.—As will be seen by the table of receipts given above our imports of lumber exceed those of the previous week by four million feet. The shipments also show an increase of about one million feet. The supply, however, has gone chiefly to fill contracts, and what cargoes have been thrown on the market have generally turned out to be inferior in quality. Under a good demand for cargoes of strips, for two or three days the market stiffened considerably, and sales were readily effected at $8.25@8.50 for east shore manufacture. During the past few days however the arrivals were more numerous, and the market closed easier. Choice cargoes of boards have also been in active request at $8,00, and as high as $9.00 has been offered for cargoes from Green Bay, and refused. The sales of cargoes during the past week were as follows:

SALES OF CARGOES DURING THE WEEK.

CONTRACTS—We hear of no contracts during the past week The manufacturers are very confident that the market must advance.

SALES FROM THE YARDS.—The majority of dealers report that business during the past week has been more active. Especially has this been the case with regard to the city trade, and the increase in our shipments demonstrate that the country trade is improving. We hear of several sales to go to St. Louis, at $26@27 for 1st clear; 22@23 for second clear; and 16@17 for thirds. The majority, however, hold at 50c@1.00 above these figures, unless for large bills. Common boards are active at our quotations. Fencing and flooring still in good demand and stock light.

SHINGLES—The increase in the receipts during the past week has rendered the market easier. The following sales were made during the week:—120,000 A Sawed Shingles at $2.12½; 457,000 Shaved Shingles from Kewaunee, at 1.75 for No 1, and 2.25 for A; 100,000 Shaved Shingles at 2.00 for No 1, and 2.25 for A; 500,000 Manitowoc Shaved Shingles, at 2.12½ all through—half cash, balance 60 days. The city trade is good, and quotations are unchanged.

LATH, POSTS, ETC.—Posts are very dull. A cargo from Manitowoc was sold a few days ago at 5c for Split, 6c for sound, and 2½@3c for culls. Lath is in fair demand, at our quotations. The stock is comparatively light.

The following table shows the quotations current among the dealers—delivered at the cars:

Albany Lumber Market—May 6.

[From the Albany Evening Journal.]

The shipments of lumber have exceeded the receipts during the past week, and although there is yet a large quantity of lumber in the yards, the District looks comparatively bare. Two boats have reached here from Buffalo, one laden with Sycamore and the other with an assorted cargo. The receipts during the fourth week in April were 6,465,100 feet of Boards and Scantling, of which 2,267,000 feet came by the Erie, and 4,108,100 feet by the Champlain Canal. The receipts thus far this season have been light, and no good lumber of any moment has as yet been received. The receipts by the Erie have thus far consisted mainly of Hemlock, Spruce and Maple.

The demand for Lumber is not very active, yet there are buyers in market awaiting the arrival of good Lumber, and for this description the market rules very firm. A few Floor Plank have been received, and were quickly taken at prices that could not be given as a fair market quotation.

We anticipate a scarcity of Lumber this season, and good Lumber will not be as plenty as it was last year. The past winter has been very unfavorable, and the mills are poorly stocked. In Northern Pennsylvania and in the western part of this State, they had only one week's sleighing during the season, and the mills are only about half stocked. In Michigan the mills are similarly situated, so it is reasonable to infer that from this section of the country the usual supplies will not be forthcoming. We learn from a reliable authority that *advices have been received in this city to the effect that, about a week ago, several heavy dealers from Chicago were in Michigan, and had purchased largely at the mills of the stock that was intended to be forwarded to this market.*

In Pines there is no change to note in prices, but in some kinds of hard wood the assortments have improved and the range in prices are wider.

Additional News by the Adelaide.

THE ULTIMATUM REJECTED BY SARDINIA.

Warlike Preparations in England.

HOSTILITIES BEGUN.

ST. JOHNS, May 10.—The Paris *Constitutionel* and the *Daily News* deny the reported alliance between France and Russia. The latter says that the document signed is a mere convention. The *Times* professes to give the provisions of the treaty, and draws the most threatening conclusions from them, regarding the alliance as a menace to England, inasmuch as Russia guarantees the services of her fleet in the Mediterranean and Baltic, in addition to the army of observation on the Austrian frontier.

The King of Sardinia had issued a proclamation to the army, saying he regarded Austria's ultimatum as an insult, and rejected it with disdain.

The French troops are landing at Genoa in large numbers. They were most enthusiastically received.

Tuscany had declared in favor of a Military Dictatorship.

GREAT BRITAIN.—Warlike preparations were going forward rapidly in England. At Woolwich there was great activity. The Government had chartered Cunard's screw steamer Ætna and a number of other vessels to convey troops and ammunition to the Mediterranean. There were rumors that a proclamation would be issued, calling for 10,000 men for the Navy. War premiums were being generally demanded at Lloyd's. There was a great panic in London, and Consols fluctuated excessively.

THE VERY LATEST.

LONDON, Saturday noon.—The Austrian manifesto is considered as tantamount to a declaration of war.

PARIS, Saturday.—The Austrians have crossed the Ticino, and hostilities have commenced. This is official.

From Washington.

WASHINGTON, May 10.—The contract for carrying the mail between New York and San Francisco, and New Orleans and San Francisco, via Nicaragua, connecting at Key west, has been awarded to Daniel H. Johnson, of New York, at $102,000, for a semi-monthly service for nine months from the first of October. The schedule time between New York and San Francisco is not to exceed twenty-three days, and between New Orleans and San Francisco twenty days. The ocean service is to be performed in good and sufficient steamships, and the Isthmus service in good and sufficient steamboats and land carriages.

Jno. Heart, formerly editor of the Charleston *Mercury* has been appointed Superintendent of Public Printing.

Foreign despatches received here confirm the statement of the English papers that Lord Derby repudiates Ousely's Nicaragua treaty for non-conforming to the original understanding with our Government, by which the Mosquito protectorate was to be relinquished simultaneously and the Bay Islands receded. New negotiations are to be immediately undertaken.

The Anniversaries.

NEW YORK, May 10.—The American Anti-Slavery Society and the American and Foreign Christian Union, both held their anniversaries to-day. Both were well attended. At the former, speeches were made by Messrs. Garrison and Pillsbury, and by Dr. Furniss, of Philadelphia.

The treasury reports receipts for the year a trifle over $11,000, and expenditures at nearly $14,000.

At the latter meeting, Dr. DeWitt presided, and Rev. Dr. Caipler spoke. The treasurer reported the receipts of the year upward of 73,000.

The Baptists held a special convention to consider the propriety of lessening the number of benevolent organizations in that denomination with a view to their greater efficiency.

Ex-Governor Briggs of Mass., presided, and Ex-Governor Colby of New Hampshire, was one of the Vice-Presidents.

Return of Commissioner Bowlin.

NEW YORK, May 10.—The frigate Sabine brought home Commissioner Bowlin and David Ward, Secretary of Legation.

Immediately after the Sabine anchored, the Secretary of Commander Shubrick set out for Washington, bearing important dispatches from the Commander and Commissioner.

Advices from Captain Lavellette, of the Wabash, dated Spezzia, say that the four persons, who some time ago committed the outrage on the American missionary family at Jaffa, had been sentenced to imprisonment and hard labor for life.

The Seamen's Friend Society.

NEW YORK, May 10.—The anniversary meeting last evening of the American Seamen's Friend Society was well attended. Addresses were made by Revs. H. Loomis, S. W. Hawks, Secretary from Massachusetts, R. Given, Chaplain in the Navy.

The report of the Secretary indicates a state of high prosperity in the affairs of the Society. The receipts for the year, including the contributions of auxiliaries, were nearly $65,000.

The Dudley Observatory.

ALBANY, May 10.—Prof. Brunt, Director of the Michigan State Observatory, has been nominated by Prof. Mitchell, and appointed by the Board of Trustees, Associate Director of Dudley Observatory. Prof. Brunt accepts, and will take up his residence at Albany forthwith. Prof. Mitchell, Director of Dudley Obervatory, removes to Albany next week.

Loss of three Valuable Trotting Horses

NEW YORK, May 10.—Three first-class trotting horses, Kate Miller, Lady Shean, and George Washington, were burned to death on Saturday in the conflagration of the stable at the Union Course, L. I. Four thousand dollars were recently refused for Geo. Washington.

The Massachusetts Restriction.

BOSTON, May 10.—The vote yesterday from 114 towns, gives over 6000 majority for the two years amendment. The total vote on the question will probably not exceed 40,000.

Another Fugitive Excitement.

ZANESVILLE, Ohio, May 10.—Reuben Johnson, the negro who took the lead in trying to rescue the fugitive slave Jackson, was arrested to-day. Hee attempted to shoot Depaty Marshal Campbell, but his pistal missed fire.

Another Strike.

CHICAGO TO PIKE'S PEAK.

PACIFIC RAILROAD,

OF MISSOURI.

THROUGH ROUTE

VIA ST. LOUIS.

Four Trains leave Chicago daily via St. Louis, Alton and Chicago, and Illinois Central Railroads making direct connections at St. Louis with trains of the Pacific Railroad, and at Jefferson City with daily line of packets for Kansas City, Leavenworth, and points on the river; at Tipton, the present terminus of the road, with the great overland mail stages of Butterfield & Co., to California. Also, with daily line of stages for all points in the interior of Missouri and South Western Kansas.

Through Tickets

By this route, saving TWO DOLLARS, can be had at the offices of the above railroads in Chicago, and at the all principal ticket offices in the Northwest.

T. McKISSOCK, Superintendent.
E. W. WALLACE, Gen'l Ticket Agent.

Important to Emigrants to the Gold Regions.

The Leavenworth and Pike's Peak Express, Passenger and Freight Company, composed of the well known firm of Russell, Magers & Waddell, Government Contractors, with a cash capital of Two Hundred Thousand Dollars, has established a line for the conveyance of passengers, express goods and freight to the mines, via the Central, Fort Riley and Smoky Hill Fork route.

This company have the contract for carrying the mails. the Legislature of Kansas has established a Territorial Road, by this route the above company are establishing camping and feeding posts every twenty-five miles along the road with ample accommodations for passengers and relays of teams. This route is up the valley of the Kansas river, and is well settled to within three hundred miles of the mines.

An appropriation of $20,000 has been made by the towns between Fort Riley and Leavenworth for complete repairs of roads and bridges.

The advantages of this route over all others are evident, and it is over one hundred and fifty miles nearer the mines than by any other, being nearly on a direct line West of Leavenworth to the mouth of Cherry Creek.

The establishment of the above road by the Territorial government and the express company, is a sure guarantee of the superiority of this route.

For full particulars for freight or passage, by this line, inquire of

C. N. PRATT,
Agent Pacific Railroad,
c854 Office 52 Dearborn street.

TRUSTEE'S SALE OF THE CHICAGO, ST. PAUL AND FOND DU LAC RAILROAD.—Whereas, The Chicago, St. Paul and Fond du Lac Railroad Company, a corporation duly constituted under the laws of the States of Illinois and Wisconsin, executed and delivered to the undersigned, James Winslow, of the City and State of New York, a Trust Deed or Mortgage, bearing date on the first day of August, one thousand eight hundred and fifty-five, and recorded in the Register's Office for Cook County, Illinois, August 14, 1855, in Book 21 of Mortgages, page 378, &c.; for Lake County, August 13, 1855, in Book O, page 1, &c.; for McHenry County, August 15, 1855, in Book 10, page 49, &c.; and for Boone County, August 14, 1855, in Book J, page 44, &c.; and in the Register's Office, for the County of Walworth, in the State of Wisconsin, August 24, 1855, in Volume 15 of Mortgages, page 589, &c.; for Rock County, August 14, 1855, in Volume N, page 523, &c.; for Jefferson County, August 17, 1855, volume 13, page 180, &c.; for Dodge County, August 22, 1855, in volume N., page 143, &c.; for Fond du Lac County, August 20, 1855, in volume P., page 122, &c., which said Trust Deed conveyed to the undersigned all and singular the railroad and its appurtenances, and the locomotives, cars, machinery, tools and fixtures, and also the privileges, franchises and rights and the other property and things hereinafter mentioned, for the purpose of securing the payment of the interest and principal of certain bonds, in the said Trust Deed described, amounting in the aggregate to three millions of dollars, in the manner and at the times therein specified, with the power and upon the Trust, (among others,) that in case of default by the said Company in any payment of interest on any of the said bonds for six months after the same should fall due, so that according to the general tenor of the said bonds, the principal thereof should become demandable, or in case of default by the said Company in any payment required to be made into the sinking fund provided by the said Trust Deed for the redemption of the principal of the said bonds, the undersigned should, on the request in writing of *bona fide* holders of such bonds to the aggregate amount of one hundred thousand dollars, enter into possession of the said railroad and property, and on advertisement specifying the time and place of sale, and published in three principal daily newspapers, printed in the city of New York, and one such newspaper printed in the city of Chicago, and one newspaper in each of the cities of Janesville and Fond du Lac, to be continued for sixty days immediately preceding such sale, or for such shorter time, not less than twenty days, as the said Company assent to, sell the same at public auction to the highest bidder, and execute a conveyance thereof to the purchasers or purchaser, and apply the proceeds of such sale, as in the said Trust Deed specified.

And, Whereas, default has been made in the payment of the interest which fell due on the first day of August, one thousand eight hundred and fifty-seven, on certain of the said bonds, and of the interest which fell due on the first day of February, one thousand eight hundred and fifty-eight, and the first day of August, one thousand eight hundred and fifty-eight, and the first day of February, one thousand eight hundred and fifty-nine, on all of the said bonds, and the said interest, amounting in the aggregate to about $420,000, yet remains wholly unpaid; and default has likewise been made in the payments required to be made into the sinking fund, whereby the entire principal of the said bonds has become due. And, Whereas, *bona fide* holders of such bonds to the aggregate amount of one hundred thousand dollars, have in writing requested the undersigned to enforce and exercise the aforesaid powers and sale:

Now, Therefore, public notice is hereby given, that in pursuance of the authority vested in me by the said Trust Deed, I shall expose for sale, at public auction, to the highest bidder, at the Court House in the city of Janesville, Rock County in the State of Wisconsin, on Thursday, the 2d day of June, 1859, and at 12 o'clock at noon of that day, ALL AND SINGULAR the railroad from Chicago, in the State of Illinois, via Woodstock, to Janesville, in the State of Wisconsin, and thence, via Watertown, to the City of Fond du Lac, in Wisconsin, being part of the railroad known as the Chicago, St. Paul and Fond du Lac Railroad, all the portions thereof from Chicago to Janesville or about ninety-two miles, and from Fond du Lac to the La Crosse Junction, or about thirty miles, being completed and in operation, and the portion thereof from Janesville to the La Crosse Junction, being partially constructed; together with all the rights of way, depot grounds, railways, rails, bridges, fences, stations, station houses and other buildings; and also all the lands and hereditaments of the said Company, in connection with the said railway or relating thereto; and also all the tolls, income, rents, issues, and profits, and corporate or other franchises of the said company connected with the said line of railway or relating thereto; and also all the locomotive engines, tenders, cars of every kind, machinery, machine shops, tools and implements, wood and property connected with the proper equipment, working, operating and conducting of the said road; and all property of every name and nature, and all rights, privileges and franchises conveyed by or embraced within the said trust deed, as by reference thereto will more fully and at large appear.

R. Mortgages, Page 17, &c.; in the Recorder's office for Marquette County, Michigan, June 13, 1857, in Book 1 of Mortgages, Page 124, &c., and for Ontonagon County, June 11, 1857, in liber A of Mortgages, folio 221, &c.; which said Trust Deed conveyed to the said Trustees ALL AND SINGULAR the entire railroad of the said Company, and its appurtenances, and the locomotives, cars, machinery, tools and fixtures; and also certain lands and land grants given and granted to said company for the construction of its line of road, and all privileges, franchises and rights, and the other property and things hereinafter mentioned; for the purpose of securing the payment of the interest and principal of certain bonds, in the said Trust Deed described—of which the first issue only, amounting in the aggregate to three millions of dollars, have been created—in the manner and at the time therein specified, with the power and upon the trust, (among others) that, if any interest on any of the said bonds should not be paid by the said company when the same should fall due, and if there should be no moneys in the hands of the Trustees out of which such interest might be paid, and if such interest should remain in arrear for three months, the said Trustees, or the survivor of them, or his or their successor should take possession of the said railroad and all its appurtenances, described in the said Trust Deed; and, at any time after such default, upon the request of the holders of two hundred and fifty thousand dollars in amount of said bonds, should sell ALL AND SINGULAR the said railroad and property, appurtenances and things described in and conveyed by said Trust Deed, first giving notice by advertisement, in two daily newspapers printed in the cities of Chicago and New York, to be continued for four months, or such shorter time, not less than forty days, as the said company might by resolution of its Board of Directors, assent to, and should execute a conveyance thereof to the purchasers or purchaser, and apply the proceeds of such sale as in the said Trust Deed specified.

AND WHEREAS the said William B. Ogden has resigned as one of the said Trustees:

AND WHEREAS default has been made in the payment of the interest which fell due on the first day of November, one thousand eight hundred and fifty-seven, and of the interest which fell due on the first day of May, one thousand eight hundred and fifty-eight, and of the interest which fell due on the first day of November one thousand eight hundred and fifty-eight, on all of the said bonds, and the said interest amounting in the aggregate to about $450,000, remains wholly unpaid:

AND WHEREAS *bona fide* holders of such bonds, to the aggregate amount of $250,000, have in writing requested the undersigned to enforce and exercise the aforesaid power of sale, and whereas, the said Company, by resolution of its Board of Directors, have assented to a sale of the said road under the said Trust Deed, at a shorter time, not less than forty days, as provided for in the said Trust Deed:

Now, THEREFORE, public notice is hereby given, that in pursuance of the authority vested in us by the said Trust Deed, we, William A. Booth and James F. D. Lanier, the remaining trustees in said Trust Deed, shall expose for sale, at public auction, to the highest bidder, at the Court House in the city of Janesville, Rock County, in the State of Wisconsin, on Thursday, the 2d day of June, 1859, and at 1 o'clock P. M. of that day, ALL AND SINGULAR the entire railroad of said company, being the railroad known as the Chicago, St. Paul and Fond du Lac Railroad, from the city of Chicago through the cities of Janesville and Oshkosh, to Lake Superior, with two terminal on the said Lake, one at Marquette and the other at Ontonagon; the portions thereof from Chicago to Janesville, or about 92 miles, and from La Crosse Junction to Oshkosh, or about forty-seven miles, being completed and in operation, and the portion thereof from Janesville to the La Crosse Junction, being partially constructed, and the portion northerly from Oshkosh being located; and also all the land, railways, rails, bridges, fences, rights of way, stations, depot grounds, station-houses and other buildings; and also all the tolls, income, rents, issues and profits and alienable franchises of the said company, connected with their railroad, or relating thereto; and also all the locomotives or stationary engines, tenders, cars of every kind, machinery, machine shops, tools and implements and materials connected with or intended for the construction, equipment, operating and conducting of said railroad (*subject*, nevertheless, as to all that part of the said road from Chicago to Fond du Lac, and its appurtenances and franchises, to the prior lien created in and by a certain other Trust Deed, bearing date the 1st day of August, 1855, made by the said company to James Winslow, Trustee, to secure the payment of the principal and interest of certain bonds, amounting in the aggregate to three millions of dollars, and the coupon attached thereto, which coupons, now unpaid, amount about $420,000.)

And also the rights and interests of the said Company, of, in and to the lands granted to the States of Wisconsin and Michigan, by the two acts of Congress, approved June 3d, 1856, and conveyed in and by the said Trust Deed.

And also all the property and things of every name and nature, and all rights, privileges and franchises conveyed by or embraced within the said Trust Deed, as by a reference thereto will more fully and at large appear.

TRUSTEE'S SALE.—Whereas, Adamson B. Newkirk, of Chicago, County of Cook, in the State of Illinois, made and executed a certain Deed of Trust to the undersigned, Charles H. Atkins, bearing date the first day of August A. D., 1857, to secure the payment of his certain promissory note, in said deed mentioned, which deed of trust is recorded in the office of the Recorder of Deeds in and for Cook County, and State of Illinois, in Book 144 of Deeds at Page 76, upon the premises hereinafter described. And, whereas, default has been made in the payment of said promissory note in said deed mentioned, bearing even date therewith, payable to the order of Paul Cornell for the sum of Three Thousand and Seven and 10-100 Dollars, six months after date thereof, and application having been made to me for the sale of the premises on account of such default. Now, therefore, notice is hereby given that by virtue of the power of sale in said Deed of Trust contained, I shall on Friday, the thirteenth day of May, A. D. 1859, at ten o'clock in the forenoon, at the north door of the Court House, in the city of Chicago, County of Cook, and State of Illinois, sell at public auction to the highest bidder for cash the following premises situated in Hyde Park, County of Cook, and State of Illinois, to wit: Lots sixteen (16) and twenty-four (24), in Block eighteen (18), with all rights and equity of redemption of the said Adamson B. Newkirk his heirs, executors, administrators or assigns in and to said premises.

Chicago, April 30th, 1859. my2-td-d143

MORTGAGE SALE.—Whereas Philo H. Thompson did, on the first day of October, A. D., 1852, make and execute, to Ezra B. McCagg, a mortgage, which was duly filed for record, and recorded in the Recorder's office of Cook county, on the 8th day of October, A. D., 1852, in Book No. 13, of Mortgages, page 339, which said mortgage was made to secure the payment of four certain promissory notes in said mortgage, particularly described, the last of said notes last maturing, having fallen due on the 1st day of October, A. D., 1857. And default having been made in the payment of the said last mentioned note, and there being in said mortgage, an agreement and provision that if default be made in the payment of said promissory notes, or either of them, or any part thereof, or of the annual interest thereon, or on either of the same, thus, in that case, the whole of said sum secured by said notes, shall at once become due and payable; and that then the said McCagg, his executors, administrators and assigns, is and are empowered in and by virtue of said mortgage, after publishing a notice in a public newspaper, printed in the city of Chicago sixty days before the day of sale, to sell the premises in said mortgage described, and all of the equity of redemption of the said Philo H. Thompson, his heirs, and assigns, at public auction, and upon sale thereof, to make, execute, and deliver to the purchaser or purchasers, good and sufficient deed, or deeds, to the said property so sold, and out of the proceeds of said sale, to pay the amount of money due on the promissory notes, under said mortgage, together with the costs and charges incident to said sale, &c.

Now, therefore, notice is hereby given, that, I, the undersigned, (said mortgagee, and said unpaid note, having been duly assigned to me), in pursuance of the authority, given by said McCagg and his assigns, I shall, on Monday, the 13th day of June next, at 10 o'clock, in the forenoon of said day, at the north door of the Court House, in the city of Chicago, county of Cook, and State of Illinois, offer for sale, and sell, to highest and best bidder, for cash in hand, the premises in said mortgage described, to wit: "Twenty acres off of the south end of the east half, of the south-west quarter, of section thirty-four, in Township thirty-nine, North of Range fourteen east of the 3d principal meridian, bounded as follows: commencing at the southeast corner of the south-west corner of the east half, of the said southwest quarter, thence north along the east line of said quarter, forty rods, thence west, eighty rods, thence south forty rods, thence east eighty rods to the place of beginning, containing twenty acres, be the same more or less."

MORTGAGE SALE.—Default having been made by John Davlin in the payment of his certain note, dated the twenty-sixth day of December, A. D. 1857, due and payable on or before the seventh day of February, A. D., 1859, for the sum of sixteen hundred and seventy-three dollars, with interest at six per cent, payable at Marine Bank, Chicago, Ill., with exchange on New York City, and said note being secured by a certain mortgage of even date therewith, executed by the said John Davlin and Mary A. Davlin, his wife, and recorded the 28th December, A. D. 1857, in Book 89 of Mortgages, Page 636, in the Recorder's Office of Cook County, Illinois, and said mortgage containing a condition that in default of the payment of the note aforesaid, the mortgagee can, in such case, sell at public auction the property in said mortgage mentioned, to liquidate and pay said note and the costs incident to the sale of said property. Now, it is, therefore, known that on the 23d day of May next, A. D. 1859, I shall offer and expose at public sale, at the Court House door, in the city of Chicago at ten o'clock A. M., Lots 21, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, known as Davlin's Subdivision of part of the east half of the southwest quarter of Section eleven, in Township thirty-nine north, Range thirteen east, of third Principal Meridian, being in the county of Cook, and State of Illinois; sale to be for cash to liquidate the amount due on said promissory note and costs of sale, and deeds executed to purchasers.

CHICAGO.

LETTER FROM EX-GOV. GRIMES, OF IOWA.

We publish in another column a letter from Gov. GRIMES of Iowa, on the proposed two years amendment in Massachusetts, called out by a note addressed to the Congressional delegation from that State by a number of leading German citizens. It is an open, frank declaration of sentiment upon the subject involved, and corresponds fully with that entertained by the Republicans, not of Iowa alone, but of every State in the Union.

TIME FOR A CHANGE.

Since Gov. Wise repudiated Douglas and his peculiar notions touching "unfriendly legislation," the chances of the Illinois Senator for the Charleston nomination have sensibly diminished. We suggest to his friends that it is about time they give him a chance to lay down a new platform for himself—one that will square with the novel situation in which he is placed. It is now almost eight months since his last dodge was conceived. Judging from the man's antecedents, it is time for him to change. His arrival here will furnish a decent pretext for a harangue, if his friends will call him out. By all means let the little dodger be heard!

"A DEMOCRATIC TRIUMPH."

The Chicago *Times* has the silliness to claim a Democratic victory in the scrub race on Tuesday last for Sewerage Commissioner, in which 2,879 votes for Republican candidates were divided between three persons, thus giving the office to a Democrat who received only 2,656. With equal propriety we might claim the total vote for Water Commissioner (5,524) as the Republican majority for that office—all having been cast for a prominent Republican. The claim set up by the *Times* is eminently Irish. It means that Cooley had three candidates against him *and he beat them all!* Faith, he could beat a dozen!

THE BRIDGE ACCIDENTS.

Human ingenuity is certainly equal to the task of providing against the loss of life by crushing or drowning, that annually occurs at our city bridges. We doubt not there are scores of men in this city, who, by giving the subject a few hours study, would be able to furnish the desideratum of entire safety at a very reasonable cost, if the Common Council would offer any inducement in that direction. Mr. Charles Heaton exhibited to us a drawing yesterday of a self-acting guard, which seems to possess both the requisites of certainty and of cheapness. He will make a working model if the Council, or if individuals who have the means, will contribute the amount (which would be small) to defray its cost. He is too poor to do it otherwise. We commend the subject to the Committee on Harbor and Bridges.

"TOO WELL FINISHED."

Occasionally some one of our citizens who has made a handsome fortune, beguiled by the quiet suburbs of New York or Boston, makes up his mind "to retire" to some beautiful spo near one of these cities, to spend the rem nant of his days in elegant leisure. The expe rience of a friend of ours who left us two o three years since, will answer for nearly every one of those who become captivated by the quiet beauties of the "finished" cities at the East.

The friend to whom we allude had secure an abundance of this world's goods; he ha lived a widower for a number of years, and having again married, he purchased a delight ful residence, surrounded by trees, and fruits and flowers, on the banks of the classic Hud son, near New York. It was "all finished," and here his friends supposed he woul bury himself out of sight of the bus world. What was the surprise of a friend o his a day or two since, to find him busily en gaged with one of our architects getting u plans for a house. "So ho," said F., "wh does this mean Doc? I thought you had r tired to an elegant house on the Hudson, o that was all finished?" "Ah!" said the Do tor, "it was *too well finished.* The fact is I g heartily tired of having nothing to do. couldn't live another year where everythin is all finished." The Doctor has acted wisel Several others we could name have acted pr cisely as he has done. One who has lived a active business life cannot make a greater mi take than to retire on his fortune. He co sults both his own happiness and length days as well by remaining where there is some thing to be done—where everything is not " finished." We know several of our form citizens who are expected to follow the exa ple of the Doctor within the next few mont

WHAT MR. SICKLES SHOULD HAVE DONE.

The injustice of those social laws which ma it a capital offence for woman to commit o sin, while man is licensed to steep himself a like depravity, has received its high illustration in our time in the late Sickles ca We refer to that incident of the trial wher it is mentioned that a sort of whispering co quy was one day carried on between the Ju and the learned counsel on both sides, wh the reporters were not allowed to hear, which was presumed to be an argument on admissability of evidence touching Mr. Sick character. *Mrs.* Sickles had been made condemn herself in an abominable confes drawn by a skillful lawyer. She had placed the last barrier between herself everything she had held dear in The shameful story of her guilt had gone fore millions of her countrymen and coun women, and she had become that thing in eyes of the world which it were better never been born. The evidence as to character of the male Sickles, however, and qualifications to cast stones at adulterers, not see the light. The Judge ruled it out the counsel for the prosecution were not enough to give that to the public which not be used before the jury.

If the whole Sickles history could been brought out—if it could have been sh exactly what sort of a stew Mrs. Sickles fancy was nursed in, her girlhood educat her womanhood familiarized with—wh what were her progenitors, her associatio her husband—it would have been pronou one of the foulest messes ever mingled in American society, and the scorn which rests upon her would be lost in amaze that she preserved a tolerable characte long. If Mr. Sickles had been possessed particle of gentlemanly feeling or sense o tice, when he discovered his wife's gu would have gone to her and said frankly she had done exactly what he and world might have expected, what he h doing and teaching others to do all the of his manhood; that she (Mrs. Sickle just good enough for him and he for h neither good enough for any one els that the proper course for them now w to pack their trunks and cast their fortu gether in the Empire of Japan.

A Bishop Trusting in a Sig

The facts in regard to the breaking Methodist Conference in Texas, and the esc of Bishop Janes, have already been made but there is one incident in the affair not generally known. When the Bish cornered by the mob he resorted for aid Masonic sign. Rev. I. Blackford, in a co the Conference in one of our Methodist ges, says:

"The Bishop had, in the hour of ext given the Masonic sign, the rabbis dis and the Conference was permitted to session."
